Handbook of Reading Interventions Rollanda E. O'Connor 2011-06-17 Comprehensive, authoritative, and designed for practical utility, this handbook presents evidence-based approaches for helping struggling readers and those at risk for literacy difficulties or delays. Leading experts explain how current research on all aspects of literacy translates into innovative classroom practices. Chapters include clear descriptions of effective interventions for word recognition, spelling, fluency, vocabulary, comprehension, and writing, complete with concrete examples and teaching scripts. Coverage also encompasses preschool literacy instruction and interventions for older readers, English language learners, and students with learning disabilities, as well as peer-mediated and tutoring approaches.

Securing Outer Space Natalie Bormann 2009-01-30 The challenges that space poses for political theory are profound. Yet until now, the exploration and utilization of space has generally reflected – but not challenged – the political patterns and impulses which characterized twentieth-century politics and International Relations. This edited volume analyses a number of controversial policies, and contentious strategies which have promoted space activities under the rubric of exploration and innovation, militarization and weaponization, colonization and commercialization. It places these policies and strategies in broader theoretical perspective in two key ways. Firstly, it engages in a reading of the discourses of space activities: exposing their meaning-producing practices; uncovering the narratives which convey certain space strategies as desirable, inevitable and seamless. Secondly, the essays suggest ways of understanding, and critically engaging with, the effects of particular space policies. The essays here seek to 'bring back space' into the realm of International Relations discourse, from which it has been largely removed, marginalized and silenced. The various chapters do this by highlighting how activities in outer space are always connected to earth-bound practices and performances of the every day. Securing Outer Space will be of great interest to students of space power, critical security studies and IR theory.

MATLAB Guide to Finite Elements Peter I. Kattan 2013-04-17 This book explores numerical implementation of Finite Element Analysis using MATLAB. Stressing interactive use of MATLAB, it provides examples and exercises from mechanical, civil and aerospace engineering as well as materials science. The text includes a short MATLAB tutorial. An extensive solutions manual offers detailed solutions to all problems in the book for classroom use. The second edition includes a new brick (solid) element with eight nodes and a one-dimensional fluid flow element. Also added is a review of applications of finite elements in fluid flow, heat transfer, structural dynamics and electro-magnetics. The accompanying CD-ROM presents more than fifty MATLAB functions.

A Tale of Two Vampires Katie Macalister 2012-09-04 Time isn't always on a vampire's side... Iolanthe Tennyson has had a very bad year—due in part to the very bad men in her life. So she's accepted her cousin's invitation to spend the summer in Austria to indulge her photography hobby. Rumors of a haunted forest there draw Iolanthe into the dark woods—and into the eighteenth century... Nikola Czerny is a cursed man, forced by his half brothers to live forever as a Dark One. But his miserable existence takes an intriguing turn when a strange, babbling woman is thrown in his path. Iolanthe claims to know Nikola's daughter—three hundred years in the future. She also knows what fate—in the form of his murderous half brothers—has in store for him. If only she knew the consequences of changing the past to save one good, impossibly sexy vampire...

First Born Janelle Gabay 2022-08-09 The chase is on for nineteen-year-old Tarian Prescott after narrowly escaping an air strike on the Entente Military Academy. Audrey, a fierce fighter and enigmatic immortal, may be the only person he can trust to save his life, but she's barely acknowledged his existence until now. She takes him to the mysterious hidden village of the Guardians of Dare, where he learns the truth about his murdered father, his immortal blood, and his beloved Entente of Nation's deepest secret. Tarian discovers he is the first immortal to be born in over 500 years, and now someone hunts him for his DNA. With only days to train and develop his immortal gifts, he struggles both physically and emotionally. Balancing the truth he must keep secret from his family with the duty of saving not only himself but also his kind and his homeland. If he and Audrey fail, all immortals will die, the government will lose

its greatest asset, and his father's death will remain unavenged. The layers of deceit run deep. Someone is lying, many are keeping secrets. Is Tarian the only innocent player in this game? Will they be enough to conquer an immortal army? Love and betrayal weave into this fast-paced adventure set in a future on the brink of war. And it's only the beginning.

An Introduction to Zoo Biology and Management Paul A. Rees 2011-03-29 This book is intended as an introductory text for students studying a wide range of courses concerned with animal management, zoo biology and wildlife conservation, and should also be useful to zookeepers and other zoo professionals. It is divided into three parts. Part 1 considers the function of zoos, their history, how zoos are managed, ethics, zoo legislation and wildlife conservation law. Part 2 discusses the design of zoos and zoo exhibits, animal nutrition, reproduction, animal behaviour (including enrichment and training), animal welfare, veterinary care, animal handling and transportation. Finally, Part 3 discusses captive breeding programmes, genetics, population biology, record keeping, and the educational role of zoos, including a consideration of visitor behaviour. It concludes with a discussion of the role of zoos in the conservation of species in the wild and in species reintroductions. This book takes an international perspective and includes a wide range of examples of the operation of zoos and breeding programmes particularly in the UK, Europe, North America and Australasia. The Autumn of the Ace Louis de Bernières 2020-11-05 'De Bernières is a singular, cherishable voice' Mail on Sunday From the master of historical fiction, this book follows an unforgettable family after the Second World War. Some bonds are hard to break... Daniel Pitt was an RAF fighter in the First World War and an espionage agent for the SOE in the Second. Now the conflicts he faces are closer to home. Daniel's marriage has fractured beyond repair and Daniel's relationship with his son, Bertie, has been a failure since Bertie was a small boy. But after his brother Archie's death, Daniel is keen for new perspectives. He first travels to Peshawar to bury Archie in the place he loved best, and then finds himself in Canada, avoiding his family and friends back in England. Daniel and Bertie's different experiences of war, although devastating, also bring with them the opportunity for the two to reconnect. If only they can find a way to move on from the past...

The Vatican Conspiracy Peter Hogenkamp 2020-10-20 "Wow... So many twists and turns that keep you guessing... Captures your attention and doesn't let go till the end." TB Honest, ★★★★★ A deadly attack on the Vatican City reveals an even deadlier conspiracy within its walls... When Marco Venetti left the military, he thought his days of violence were behind him. But now a beautiful woman is begging for his help. Her daughter has been kidnapped to force her to smuggle a gang of killers into the country. If she disobeys, her family will die. Determined to protect her, Marco goes on the hunt. But after a terrifying battle on a rocky island off the Italian coast, he finds a map on one of the men's bodies that reveals their ultimate goal: a deadly terrorist attack on the Vatican City itself. Marco races to prevent a bloodbath in the heart of Rome, but the terrorists are more dangerous than he knew. A nuclear weapon is missing, and the CIA, Russians and Israelis are too busy fighting to prevent it falling into the wrong hands. The only person Marco can trust is himself. He must track down and kill his enemy... but the Vatican is home to secrets and conspiracies, and soon Marco realises he may not even know who the real enemy is. Can he uncover a traitor before time runs out? For fans of Joel C. Rosenberg, Tom Clancy and Steven Konkoly, *The Vatican Conspiracy* is a non-stop explosive thriller of betrayal, revenge and world-shaking conspiracy. See what readers are saying about *The Vatican Conspiracy*: "An outstanding start to this series!... Grabs you on the first page and is powered by non-stop action and a taut, emotional narrative... A real page turner!" Goodreads Reviewer, ★★★★★ "Fast-paced action-packed... Nail-biting tension... I really enjoyed reading and would definitely recommend." NetGalley Reviewer, ★★★★★ "Riveting... I was completely engrossed... A tonne of action, plenty of twists and turns, and enough drama to keep you feverishly turning the pages." Readers Retreat "An exhilarating action thriller... Fast-paced and engaging... Look forward to reading the sequels." DP Reads, ★★★★★ "A fast-paced action thriller with a lot of twists and turns that keeps you on the edge of your seat until the very end... The main character Marco is amazing!... Eagerly waiting for the next book!" Goodreads Reviewer "Great action-packed novel... Pulled me in from the first page. There was so much action... I highly recommend" Just Read Jess, ★★★★★ "If you're a fan of Dan Brown and Steve Berry, you do not want to miss this new series... Kept me hooked; the action never completely let up." Fireflies & Freckles "Fantastic... A blistering read that won't disappoint." Goodreads Reviewer, ★★★★★ "Relentless action, a gripping storyline... Promises to be a terrific series." Goodreads Reviewer "Fast paced, action packed, adrenaline inducing." Sharon Beyond the Books, ★★★★★ "If you are in need of excitement—and who isn't given the lack of travel and parties etc? then you need to read this book. You will be breathless from all the running,

and you don't even need to get out of bed. There are so many twists and turns you could get whiplash, but it would be worth it to reach the end of this wild ride." Mrs Average Evaluates

The Company Daughters Samantha Rajaram 2020-10-30 'Blew my mind... so magically written and most of all that it is based on true events... a hard-hitting, soul-crushing book... I loved every moment of it... immersive, heart-wrenching, I feel emotional writing this review.' Goodreads reviewer, 5 stars Wanted: Company Daughters. Virtuous young ladies to become the brides of industrious settlers in a foreign land. The Company will pay the cost of the lady's dowry and travel. Returns not permitted, orphans preferred. Amsterdam, 1620. Jana Beil has learned that life rarely provides moments of joy. Having run away from a violent father, her days are spent searching for work in an effort to stay out of the city brothels, where desperate women trade their bodies for a mouthful of bread. But when Jana is hired as a servant for the wealthy and kind Master Reynst and his beautiful daughter Sontje, Jana's future begins to look brighter. Then Master Reynst loses his fortune on a bad investment, and everything changes. The house is sold to creditors, leaving Jana back on the street and Sontje without a future. With no other choice, Jana and Sontje are forced to sign with the East India Company as Company Daughters: sailing to a colonial Dutch outpost to become the brides of male settlers they know nothing about. With fear in their hearts, the girls begin their journey – but what awaits them on the other side of the world is nothing like what they've been promised... Based on true history, this is a gripping and unputdownable historical novel, perfect for fans of *Girl with a Pearl Earring*, *The Miniaturist* and *The Indigo Girl*. WINNER OF THE 2021 GOLDEN CROWN LITERARY SOCIETY AWARD FOR DEBUT FICTION. FINALIST FOR THE 2021 BISEXUAL BOOK AWARDS. LONGLISTED FOR THE 2021 HWA DEBUT CROWN AWARD. What readers are saying about *The Company Daughters*: 'Blew my mind... a book I've told so many people about purely because I'm still in disbelief that it exists, that it's so magically written and most of all that it is based on true events... a hard-hitting, soul-crushing book of a woman's struggle to survive... I loved every moment of it. Breathlessly, and in a way that took up my entire brain... immersive, heart-wrenching, and I feel emotional writing this review.' Goodreads reviewer, 5 stars 'From the moment I started reading *The Company Daughters*, I was captivated by this historical tale. Although it does contain a love story, it's not a romance...This was a gripping read.' Goodreads reviewer 'This book is so stunningly tender and beautiful, all mixed in with some seriously tragic and heart-wrenching events... Rajaram is an extremely skilled writer, and I love her writing style... The themes of sisterhood and female love were so present in this book and I found it very moving.' Goodreads reviewer 'I was enchanted by this book! It's a delightful read that will have your emotions all over the place.' Goodreads reviewer 'I love historical fiction, and this book touched on a topic and time I knew nearly nothing about...There's love, there's loss, there's surviving, there's thriving... It was a very beautiful book.' Goodreads reviewer 'The Company Daughters is a beautifully written love story... a perfect example of the power of human will and the endurance and hope that love can give a person.' Goodreads reviewer, 5 stars 'This book has a beauty and grace to it. The author's writing just flows off the page, and although there are struggles and upsets by the time you close the book over you are filled with a warm glow.' Goodreads reviewer 'A powerful and insightful read. I look forward to reading more historical work by Samantha Rajaram!' Goodreads reviewer 'Heartbreaking... a moving book... vivid, with amazing characters... This is a great read.' Goodreads reviewer

American Pickers Guide to Picking Libby Callaway 2011-09-13 A true adventure story and the go-to guide for "picking" American treasures from anyone's backyard, straight from the stars of History's American Pickers In these pages, professional treasure hunters Mike Wolfe and Frank Fritz chronicle their road trips across the American countryside in search of "rusty gold" to buy and sell among the picking world's one-of-a-kind characters. Whether you are a fan of the show or just like finding hidden riches, you will love seeing what Wolfe and Fritz dig up and enjoy meeting the devoted collectors, extreme stockpilers, and elite dealers who they encounter along the way. Wolfe and Fritz do not deal in fine antiques. Their secondhand treasures are of the down-and-dirty and sometimes even bizarre variety, from old bicycles and vintage tools, to sun-bleached cars and handmade furniture, retired carnival games and unusual taxidermy. Assisted by Danielle Colby, who helps out at Antique Archaeology, Wolfe and Fritz buy on the cheap and then sell to dealers, art directors, interior designers, or anyone looking for a little bit of authentic Americana. The three now share their secrets to finding hidden gems, offering helpful hints that will show what average Americans can do to find the treasures that await them. From *American Pickers Guide to Picking: Junk is Beautiful* When we knock on a door, 90 percent of the time the things we find are junk. But we don't care about the odds; a picker never turns down an opportunity, no matter where it is. We've picked pickup trucks. We've picked flat beds. We've picked dumpsters. We even picked a Mercury Sable. We're looking for the unusual, the impossible, the funky, the different, the bizarre-things we have never seen before. And we'll go anywhere we have to go to find it. No location is off-limits to a hard-core picker. And there's plenty of things to be found at antique stores, thrift and consignment shops, flea markets, estate sales, and swap meets, and a lot of the tips in this book apply to finding treasures at these joints. But that's not really the kind of picking we do anymore. We look outside the box to find our junk-a word we use almost like a term of endearment: to us: junk is beautiful.

The Grace Walk Experience Steve McVey 2008-03-01 For years, Steve McVey's Grace Walk (more than 200,000 copies sold) has inspired Christians to leave behind a performance and fear-based faith to embrace a faith lived in abundance and grace. Now *The Grace Walk Experience* workbook helps readers move that message of hope from their heads to their hearts as they explore eight truths that have changed lives worldwide daily, interactive studies that reveal grace as much more than a doctrine ways to quit "doing" for God so that He can live through them illustrations of the wonder and miracle of faith as God intended God's Word, salvation, and evangelism with new perspective This excellent tool for church classes, small group discussion, and individual study will lead believers to understand their identity in Christ, let go of legalism, and make room for the overflowing love, mercy, and purpose of life lived wholly in God's grace.

Profiting with Iron Condor Options Michael Benklifa 2011-01-19 In a straightforward approach, Hanania Benklifa provides readers the practical knowledge needed to trade options conservatively in Profiting with Iron Condor Options: Strategies from the Frontline for Trading in Up or Down Markets. The objectives are simple: make 2%-4% a month staying in the market as little as possible. Market experts use option condors to consistently earn monthly returns while trading conservatively and staying in the market as little as possible. Benklifa--who manages \$10+ million in condor trades each month--shows you exactly how to run these trades and earn these returns, delivering all the details you need to master every nuance of this remarkable strategy. Benklifa shares option condors examples using market realities, not oversimplified abstractions. You'll learn how to handle real-life market dynamics that can dramatically impact results, including rising and falling volatility, changing bid-ask spreads, and distorted call parity. You'll learn how to profit in the sideways markets where condor options are most widely used--and also in extreme-trending markets that offer their own surprising opportunities. Traders who focus on a specific type of trade have a history of outperforming stock pickers and directional investors. This book will give you that deep and usable level of knowledge about one of today's most well-proven strategies: option condors.

Access Data Analysis Cookbook Ken Bluttman 2007-05-14 If you have large quantities of data in a Microsoft Access database, and need to study that data in depth, this book is a data cruncher's dream. Access Data Analysis Cookbook offers practical recipes to solve a variety of common problems that users have with extracting Access data and performing calculations on it. Each recipe includes a discussion on how and why the solution works. Whether you use Access 2007 or an earlier version, this book will teach you new methods to query data, different ways to move data in and out of Access, how to calculate answers to financial and investment issues, and more. Learn how to apply statistics to summarize business information, how to jump beyond SQL by manipulating data with VBA, how to process dates and times, and even how to reach into the Excel data analysis toolkit. Recipes demonstrate ways to: Develop basic and sophisticated queries Apply aggregate functions, custom functions, regular expressions, and crosstabs Apply queries to perform non-passive activities such as inserting, updating, and deleting data Create and manipulate tables and queries programmatically Manage text-based data, including methods to isolate parts of a string and ways to work with numbers that are stored as text Use arrays, read and write to the Windows registry, encrypt data, and use transaction processing Use the FileSystemObject, use XML with XSLT, communicate with SQL Server, and exchange data with other Office products Find answers from time-based data, such as how to add time, count elapsed time, work with leap years, and how to manage time zones in your calculations Deal with business and finance problems, including methods for calculating depreciation, loan paybacks, and Return on Investment (ROI) Explore statistical techniques, such as frequency, variance, kurtosis, linear regression, combinations and permutations Access Data Analysis Cookbook is a one-stop-shop for extracting nuggets of valuable information from your database, and anyone with Access experience will benefit from these tips and techniques, including seasoned developers. If you want to use your data, and not just store it, you'll find this guide indispensable.

GIS Diffusion I. Masser 2020-11-26 This third book in the GISDATA series focuses on the widespread use of geographical information systems GIS in European local government. The editors include a wide range of applications carried out by different professional groups, and offer the opportunity of studying the extent to which diffusion of innovations like GIS are sensitive to national issues such as cultural context, institutional setup and the availability of data.; The book answers key questions such as: what can be learnt from research on organizational behaviour in relation to technological innovation?; what are the classical features of the GIS diffusion process?; to what extent is the adoption and utilization of GIS facilitated - or impeded - by the organizational culture within which it takes place?; and what mechanisms can be applied to enhance the diffusion of GIS? The book covers aspects of diffusion in the following European countries: UK, France, Italy, Poland, Denmark, The Netherlands, Germany, Greece and Portugal.

Making Sense of Data II Glenn J. Myatt 2009-03-04 A hands-on guide to making valuable decisions from data using advanced data mining methods and techniques This second installment in the Making Sense of Data series continues to explore a diverse range of commonly used approaches to making and communicating decisions from

data. Delving into more technical topics, this book equips readers with advanced data mining methods that are needed to successfully translate raw data into smart decisions across various fields of research including business, engineering, finance, and the social sciences. Following a comprehensive introduction that details how to define a problem, perform an analysis, and deploy the results, Making Sense of Data II addresses the following key techniques for advanced data analysis: Data Visualization reviews principles and methods for understanding and communicating data through the use of visualization including single variables, the relationship between two or more variables, groupings in data, and dynamic approaches to interacting with data through graphical user interfaces. Clustering outlines common approaches to clustering data sets and provides detailed explanations of methods for determining the distance between observations and procedures for clustering observations. Agglomerative hierarchical clustering, partitioned-based clustering, and fuzzy clustering are also discussed. Predictive Analytics presents a discussion on how to build and assess models, along with a series of predictive analytics that can be used in a variety of situations including principal component analysis, multiple linear regression, discriminate analysis, logistic regression, and Naïve Bayes. Applications demonstrates the current uses of data mining across a wide range of industries and features case studies that illustrate the related applications in real-world scenarios. Each method is discussed within the context of a data mining process including defining the problem and deploying the results, and readers are provided with guidance on when

and how each method should be used. The related Web site for the series (www.makingsenseofdata.com) provides a hands-on data analysis and data mining experience. Readers wishing to gain more practical experience will benefit from the tutorial section of the book in conjunction with the Traceis™ software, which is freely available online. With its comprehensive collection of advanced data mining methods coupled with tutorials for applications in a range of fields, Making Sense of Data II is an indispensable book for courses on data analysis and data mining at the upper-undergraduate and graduate levels. It also serves as a valuable reference for researchers and professionals who are interested in learning how to accomplish effective decision making from data and understanding if data analysis and data mining methods could help their organization.
