The authors have, however, been thinking, for the last few years that the book needed not only a thorough revision but rather a substantial rewriting. They now take great pleasure in presenting to the readers the twelfth, thoroughly revised and enlarged, Golden Jubilee edition of the book. The subject-matter in the entire book has been re-written in the light of numerous criticisms and suggestions received from the users of the earlier editions in India and abroad. The basis of this revision has been the emergence of new literature on the subject, the constructive feedback from students and teaching fraternity, as well as those changes that have been made in the syllabi and/or the pattern of examination papers of numerous universities. Employees First, Customers Second Vineet Nayar 2010 Imagine a management philosophy based not upon serving a company's customers, but on serving the company's employees. Vineet Nayar, CEO of HCL Technologies in India, has put such a philosophy into practice with remarkable results. His "employee first, customer second" mantra has been recognized globally as an example of organizational innovation, and was deemed a "new and radical management philosophy" ripe for the picking in the Western world by Business Week. In this book, Nayar himself describes his blunt refusal to treat the flesh and blood of HCL--its people--as "human resource" or as "intellectual capital" or even as an asset like all its other assets--and how his unique perspective led to an holistic transformation of his organization. By putting employees on top of the organizational pyramid, he argues, your company can fully realize the value created in the interface between customers and employees. This book leads managers and executives through the five core aspects of Nayar's approach, demonstrating how to create a sense of urgency, overhaul incentives and reporting structures, foster transparency in communications and feedback, provide platforms for achievement and personal growth, and finally recognize the potential of every individual in the organization. The "Employee First" philosophy should be the fulcrum of the transformation journey of any organization.
