Unworthy Anneli Rufus 2014-05-15 “Self-loathing is a dark land studded with booby traps. Fumbling through its dark underbrush, we cannot see what our trouble actually is: that we are mistaken about ourselves. That we were told lies long ago that we, in love and loyalty and fear, believed. Will we believe ourselves to death?” —from *Unworthy* As someone who has struggled with low self-esteem her entire life, Anneli Rufus knows only too well how the world looks through the eyes of those who are not comfortable in their own skin. In *Unworthy*, Rufus boldly explores how a lack of faith in ourselves can turn us into our own worst enemies. Drawing on extensive research, enlightening interviews, and her own poignant experiences, Rufus considers the question: What personal, societal, biological, and historical factors coalesced to spark this secret epidemic, and what can be done to put a stop to it? She reveals the underlying sources of low self-esteem and leads us through strategies for positive change.

Memory Drawing Darren R. Rousar 2013-03 From the Introduction: If you think about it, all life drawing and painting is at some point being done from the artist’s memory, even if that memory is only a few seconds old. Every time the artist takes their eyes off of the model or scene and looks at their paper or canvas, their visual memory is involved. What if that artist’s visual memory was highly trained? That artist might need the model for a shorter period of time, or she might have a more productive time when the model is in pose. He might be better at painting all of the fleeting effects that nature throws at us when we are landscape painting en plein air. Although I encourage you to consistently engage in memory-drawing practice, it should not supplant your regular art exercises. Memory-drawing ought to be done in addition to your regular art training, not instead of it. In a perfect world it would be integrated into traditional arts instruction, but the reality is that you will most likely be training your visual memory on your own. **Memory Drawing: Perceptual Training and Recall** exists to guide you in doing just that. It will also help you improve your abilities to remember fleeting effects, seize essentials, and even enhance your imagination.

The Essential Jesus John Dominic Crossan 2008-03-01 After his definitive *The Historical Jesus*, John Dominic Crossan delivered *Jesus: A Revolutionary Biography*—a popularized, bestselling account of what we can know about the life of Jesus. Here he offers the core of his life’s work—a concise and astonishing presentation of the authentic teachings and earliest images of the revolutionary Galilean sage. Crossan’s fresh translations of Jesus’ sayings show Jesus to be a teacher whose radical message that all are equal before God is as timely today as it was two thousand years ago. This picture is dramatically confirmed by the pre-Constantinian, Christian renderings of Jesus, which show that he was remembered by the first Christians not as God but as a revolutionary healer and leader.

Reclaiming Fair Use Patricia Aufderheide 2011-07-15 In the increasingly complex and combative arena of copyright in the digital age, record companies sue college students over peer-to-peer music sharing, YouTube removes home movies because of a song playing in the background, and filmmakers are denied a distribution deal when some permissions “i” proves undottable. Patricia Aufderheide and Peter Jaszi chart a clear path through the confusion by urging a robust embrace of a principle long-embedded in copyright law, but too often poorly understood—fair use. By challenging the widely held notion that current copyright law has become unworkable and obsolete in the era of digital

The Real Toy Story Eric Clark 2007-01-09 The American toy business is massive, world dominating, cutthroat, exciting, and increasingly willing to sacrifice our kids in its frantic rush for profit. And yet, for all its rapaciousness, the industry is in the business of delighting and fascinating our children. Toys are one of the most emotive subjects in the world. We all remember our own toys; we care desperately about those we choose for our kids, knowing these objects help shape children’s lives. They are also a constantly newsworthy item: every Christmas, which toys are hot -- and the scramble by parents to grab them before the stores are empty -- is front-page and TV bulletin news. The Real Toy Story tells the tales of these toys and of the vast, world-dominating \$22 billion American industry that creates them. The rewards for success are enormous: a top toy can earn billions -- H. Ty Warner shot into Forbes’s World’s Richest People list with his creation of Beanie Babies. The price of failure is just as huge -- the battlefield is littered with the corpses of once-successful toy companies whose multimillion-dollar gambles did not pay off. It is a world of contrasts. The Real Toy Story looks at both sides: at Slinky, Elmo, Barbie, Transformers, and their creators, but also at the dark side of an industry that leads the way in cold-blooded marketing targeted at children. Parents will want to learn about how this seemingly benign industry exploits, sometimes surreptitiously, the many new media: cable television, the Internet, CD-ROMs, sometimes even invading the playgrounds to peddle their wares to unsuspecting young people. Perhaps more disturbingly, this hard-hitting book examines the vast gap between the cuddly image of toys and how almost all toys destined for America are actually produced in China under sweatshop conditions. Today the toy industry is in the midst of rapid change. Tapping into the concern millions of adults have about the toys they choose for the children in their lives, this riveting exposé is essential reading for everyone who cares about kids.

Buckland’s Domino Divination Raymond Buckland 2010-10-01 Tarot cards have been a staple of the divination market for years, as has been the I-Ching, numerology, astrology, tea-leaf reading and palmistry. More recently runes have joined these and become very popular. In 1982 Ralph Blum’s *The Book of Runes* started the trend and a wide variety of books on reading runes is now available. Almost as old as tarot cards are the dominoes, the first records of their use being found in China in the early twelfth century. Although today familiar to most people only as a game, dominoes were originally used by the Chinese for divination and fortune-telling. The reading of dominoes comes under the heading of sortilege and, as such, can be traced back to early Greek and Roman methods of divining the future. Divination with dominoes would seem to be a natural follow-on to the popularity of runes. Domino sets are much more readily available than are runes, which are usually manufactured solely for divination use. To be able to do similar readings but with such an accessible tool could not only fulfill the needs of those who are always searching for new lines of psychic development but could also be instrumental in introducing previously hesitant would-be diviners into the field. One of the unique features of domino divination is the fact that more than one person may be “read” at the same time.

LIFE INSTITUTE DIALOGUE WITH THE DALAI LAMA AND OTHERS ON TWO FUNDAMENTAL FORCES: POWER AND CARE—POWER OVER AND CARE FOR OTHERS IN HUMAN SOCIETIES. THE NOTION OF POWER IS ESSENTIALLY NEUTRAL; POWER CAN BE USED TO BENEFIT OTHERS OR TO HARM THEM, TO BUILD OR TO DESTROY. CARE, ON THE OTHER HAND, IS NOT A NEUTRAL FORCE; IT AIMS AT INCREASING THE WELLBEING OF OTHERS. POWER AND CARE ARE NOT INCOMPATIBLE: POWER, IMBUED WITH CARE, CAN ACHIEVE MORE THAN A POWERLESS MOTIVATION TO CARE; POWER, WITHOUT THE INTENTION TO BENEFIT OTHERS, CAN BE RUTHLESS.
