Bevelations Bevy Smith 2021-01-12
"Bevy knows what's what, and she is the kind of woman you want in your corner. If you don't believe me . . . buy the book." –Whoopi Goldberg
"Funny, wise, well-experienced,

empathetic, colorful—Bevy brings the spirit of humanity wherever she goes." —Pharrell Williams From the host of the fabulous and popular show Bevelations on SiriusXM's Radio Andy channel, Bevy Smith's irreverent and inspiring memoir about learning to

live a big, authentic, and unapologetic life—and how you can, too Bevy Smith was living what seemed like a glamorous dream as a fashion advertising executive, blazing a lucrative career for herself in the whitewashed magazine world. She jetsetted to Europe for fashion shows, dined and danced at every hot spot, and enjoyed a mighty roster of lovers. So it came as quite a shock to Bevy when one day, after arriving at her luxury hotel in Milan, she collapsed on the Frette bedsheets and sobbed. Years of rolling with the in-crowd had taken its toll. Her satisfaction with work and life had hit rock bottom. But Bevy could not be defeated, and within minutes (okay, days) she grabbed a notepad and started realizing a truer path—one built on self-reflection

and, ultimately, clarity. She figured out how to redirect her life toward meaningful creativity and freedom. In her signature lively and infectious voice (there's no one like Bevy!), Bevelations candidly shares how she reclaimed her life's course and shows how we too can manifest our most bodacious dreams. From repossessing her bold childhood nature to becoming her own brand to envisioning her life's next great destination (which will feature natural hair, important charitable giving, and a midcentury house overlooking the Pacific Ocean), Bevy invites readers along on the route of her personal transformation to reveal how each of us can live our best lives with honesty, joy, and, when we're in the mood, a killer pair of shoes.

History Decoded Brad Meltzer
2013-10-22 It's an irresistible combination: Brad Meltzer, a born storyteller, counting down the world's most intriguing unsolved

mysteries. And to make this richly illustrated book even richer, each chapter invites the reader along for an interactive experience through the addition of removable facsimile documents—the evidence! It's a treasure trove for conspiracy buffs, a Griffin and Sabine for history lovers. Adapted from Decoded, Meltzer's hit show on the HISTORY network, History Decoded explores fascinating, unexplained questions. Is Fort Knox empty? Why was Hitler so intent on capturing the Roman "Spear of Destiny"? What's the government hiding in Area 51? Where did the Confederacy's \$19 million in gold and silver go at the end of the Civil War? And did Lee Harvey Oswald really act alone? Meltzer sifts through the evidence; weighs competing theories; separates what we know to be true

with what's still—and perhaps forever—unproved or unprovable; and in the end, decodes the mystery, arriving at the most likely solution. Along the way we meet Freemasons, Rosicrucians, Nazi propagandists, and the real DB Cooper. Bound in at the beginning of each story is a custom-designed envelope—a faux 19th-century leather satchel, a U.S. government classified file—containing facsimiles of relevant evidence: John Wilkes Booth's alleged unsigned will, a map of the Vatican, Kennedy's death certificate. The whole is a riveting, interactive adventure through the compelling world of mysteries and conspiracies.

52 Funeral Sermons Barry L. Davis
2013-05-05 For most of us, one of the most rewarding, yet difficult tasks, is preparing messages to preach and

teach. We are honored by God to stand before our congregation each week, and we want to give them the very best, but with the press of the many demands of ministry, sometimes that is difficult to do. And if you're like me, you prefer writing your own sermons because you have a special connection with your congregation that is hard to reach through a message someone else has written. In other words, no one knows your people like you do! Our new Pulpit Outline Series gives you a starting point - a sermon title, a deductive sermon outline; and a relevant illustration you can use however you like. In this edition, rather than an outline, we have given you full manuscript messages that can be edited to suit your purposes. We invite you to make these messages your own, because only

you know the people God has called you to preach to. And we are so honored that you've invested in this unique third volume in the Pulpit Outline series - 52 Funeral Sermons. We have put together the most tasteful, relevant, and Biblical messages possible. May God Bless You as You Share His Word!

How To Watch Television Ethan Thompson 2013-09-16 Examines social and cultural phenomena through the lens of different television shows We all have opinions about the television shows we watch, but television criticism is about much more than simply evaluating the merits of a particular show and deeming it 'good' or 'bad.' Rather, criticism uses the close examination of a television program to explore that program's cultural significance, creative strategies, and its place in

a broader social context. How to Watch Television brings together forty original essays from today's leading scholars on television culture, writing about the programs they care (and think) the most about. Each essay focuses on a particular television show, demonstrating one way to read the program and, through it, our media culture. The essays model how to practice media criticism in accessible language, providing critical insights through analysis—suggesting a way of looking at TV that students and interested viewers might emulate. The contributors discuss a wide range of television programs past and present, covering many formats and genres, spanning fiction and non-fiction, broadcast and cable, providing a broad representation of the programs

that are likely to be covered in a media studies course. While the book primarily focuses on American television, important programs with international origins and transnational circulation are also covered. Addressing television series from the medium's earliest days to contemporary online transformations of television, How to Watch Television is designed to engender classroom discussion among television critics of all backgrounds.

Financial Freedom Grant Sabatier 2020-04-07 The International Bestseller "This book blew my mind. More importantly, it made financial

independence seem achievable. I read Financial Freedom three times, cover-to-cover." –Lifehacker Money is unlimited. Time is not. Become financially independent as fast as possible. In 2010, 24-year old Grant Sabatier woke up to find he had \$2.26 in his bank account. Five years later, he had a net worth of over \$1.25 million, and CNBC began calling him "the Millennial Millionaire." By age 30, he had reached financial independence. Along the way he uncovered that most of the accepted wisdom about money, work, and retirement is either incorrect, incomplete, or so old-school it's obsolete. Financial Freedom is a step-by-step path to make more money in less time, so you have more time for the things you love. It challenges the accepted narrative of

spending decades working a traditional 9 to 5 job, pinching pennies, and finally earning the right to retirement at age 65, and instead offers readers an alternative: forget everything you've ever learned about money so that you can actually live the life you want. Sabatier offers surprising, counter-intuitive advice on topics such as how to: * Create profitable side hustles that you can turn into passive income streams or full-time businesses * Save money without giving up what makes you happy * Negotiate more out of your employer than you thought possible * Travel the world for less * Live for free-- or better yet, make money on your living situation * Create a simple, money-making portfolio that only needs minor adjustments * Think

creatively--there are so many ways to make money, but we don't see them. But most importantly, Sabatier highlights that, while one's ability to make money is limitless, one's time is not. There's also a limit to how much you can save, but not to how much money you can make. No one should spend precious years working at a job they dislike or worrying about how to make ends meet. Perhaps the biggest surprise: You need less money to "retire" at age 30 than you do at age 65. Financial Freedom is not merely a laundry list of advice to follow to get rich quick--it's a practical roadmap to living life on one's own terms, as soon as possible.

Elizabeth and Monty Charles Casillo

2021-05-25 Violet-eyed siren

Elizabeth Taylor and classically handsome Montgomery Clift were the

most gorgeous screen couple of their time. Over two decades of friendship they made, separately and together, some of the era's defining movies—including *Cat on a Hot Tin Roof*, *The Misfits*, *Suddenly*, *Last Summer*, and *Cleopatra*. Yet the relationship between these two figures—one a dazzling, larger-than-life star, the other hugely talented yet fatally troubled—has never truly been explored until now. “Monty, Elizabeth likes me, but she loves you.” —Richard Burton When Elizabeth Taylor was cast opposite Montgomery Clift in *A Place in the Sun*, he was already a movie idol, with a natural sensitivity that set him apart. At seventeen, Elizabeth was known for her ravishing beauty rather than her talent. Directors treated her like a glamorous prop. But Monty took her

seriously, inspiring and encouraging her. In her words, “That’s when I began to act.” To Monty, she was “Bessie Mae,” a name he coined for her earthy, private side. The press clamored for a wedding, convinced this was more than friendship. The truth was even more complex. Monty was drawn to women but sexually attracted to men—a fact that, if made public, would destroy his career. But he found acceptance and kinship with Elizabeth. Her devotion was never clearer than after his devastating car crash near her Hollywood home, when she crawled into the wreckage and saved him from choking. Monty’s accident shattered his face and left him in constant pain. As he sank into alcoholism and addiction, Elizabeth used her power to keep him working. In turn, through scandals and

multiple marriages, he was her constant. Their relationship endured until his death in 1966, right before he was to star with her in *Reflections in a Golden Eye*. His influence continued in her outspoken support for the gay community, especially during the AIDS crisis. Far more than the story of two icons, this is a unique and extraordinary love story that shines new light on both stars, revealing their triumphs, demons—and the loyalty that united them to the end. “Casillo weaves an engrossing story about the intertwined lives of his subjects – the parallel worlds of privilege that they came from, the personal misfortunes that each suffered and the seemingly inextricable path that led to that fateful night. The author approaches them both with sympathy

and comes away with a melodrama as good as any that they ever starred in.” –The New York Times “In a riveting new book that brings Hollywood's golden age to life with colorful, well-researched details and interviews with stars who knew Taylor and Clift, Casillo explores the intense bond the two shared.” –People Magazine

Captive Audience Susan Crawford
2013-01-08 Ten years ago, the United
States stood at the forefront of the
Internet revolution. With some of the
fastest speeds and lowest prices in
the world for high-speed Internet
access, the nation was poised to be

the global leader in the new knowledge-based economy. Today that global competitive advantage has all but vanished because of a series of government decisions and resulting monopolies that have allowed dozens of countries, including Japan and South Korea, to pass us in both speed and price of broadband. This steady slide backward not only deprives consumers of vital services needed in a competitive employment and business market—it also threatens the economic future of the nation. This important book by leading telecommunications

policy expert Susan Crawford explores why Americans are now paying much more but getting much less when it comes to high-speed Internet access. Using the 2011 merger between Comcast and NBC Universal as a lens, Crawford examines how we have created the biggest monopoly since the breakup of Standard Oil a century ago. In the clearest terms, this book explores how telecommunications monopolies have affected the daily lives of consumers and America's global economic standing.
