Do I Really Have to Teach Reading? Cris Tovani

2004-01-01 Takes on the challenge of helping students apply reading comprehension strategies in any subject. Shows how teachers can expand on their content expertise to provide instruction students need to understand specific technical and narrative texts. The book includes: examples of how teachers can model their reading process for students; ideas for supplementing and enhancing the use of required textbooks; detailed descriptions of specific strategies taught in context; stories from different high school classrooms to show

how reading instruction varies according to content; samples of student work, including both struggling readers and college-bound seniors; a variety of 'comprehension constructors': guides designed to help students recognize and capture their thinking in writing while reading; guidance on assessing students; tips for balancing content and reading instruction.

Milestones C: Student Edition Neil Anderson 2008-03 The Student Edition includes 2 chapters per unit (including literature reading and content reading), embedded assessment, 3 kinds of vocabulary practice, and an "Apply & Extend" section with academic workshops and end-of-unit assessment. Using a unique embedded assessment plan along with a balanced blend of literature and content readings, Milestones ensures that students are mastering skills and standards before being introduced to new skills and standards. This consistent, research-based approach will lead your students to success on state exams as well as to the language acquisition and content knowledge crucial for academic success.
