Divine Stories

Divine Stories 2013-02-08 Divine Stories is the inaugural volume in a landmark translation series devoted to making the wealth of classical Indian Buddhism accessible to modern readers. The stories here, among the first texts to be inscribed by Buddhists, highlight the moral economy of karma, illustrating how gestures of faith, especially offerings, can bring the reward of future happiness and ultimate liberation. Originally contained in the Divyavadana, an enormous compendium of Sanskrit Buddhist narratives from the early Common Era, the stories in this collection express the moral and ethical impulses of Indian Buddhist thought and are a testament to the historical and social power of narrative. Long believed by followers to be the actual words of the Buddha himself, these divine stories are without a doubt some of the most influential stories in the history of Buddhism.

Jung and the Postmodern Christopher Hauke 2013-10-23 What has Jung to do with the Postmodern? Chris Hauke's lively and provocative book, puts the case that Jung's psychology constitutes a critique of modernity that brings it in line with many aspects of the postmodern critique of contemporary culture. The metaphor he uses is one in which 'we are gazing through a Jungian transparency or filter being held up against the postmodern while, from the other side, we are also able to look through a transparency or filter of the postmodern to gaze at Jung. From either direction there will be a new and surprising vision.' Setting Jung against a range of postmodern thinkers, Hauke recontextualizes Jung's thought as a reponse to modernity, placing it - sometimes in parallel and sometimes in contrast to - various postmodern discourses. Including chapters on themes such as meaning, knowledge and power, the contribution of architectural criticism to the postmodern debate, Nietzsche's perspective theory of affect and Jung's complex theory, representation and symbolization, constructivism and pluralism, this is a book which will find a ready audience in academy and profession alike.

Her Summer with the Marine Susan Meier 2014-03-10 Their competition has never been so irresistible The last person Ellie McDermott wanted to run into after returning to her hometown is Finn Donovan, her high school nemesis and the guy she crossed the line from enemies to lovers with one night years ago. Now ex-military, tattooed, and still sexy as hell, Finn is a complication Ellie doesn't need-she needs to concentrate on saving her family business. Finn's entire life, Ellie was there, going head-to-head with him in every class, bee, and test. So it's no surprise she'd show up just as he was about to take over her father's struggling business. It is a surprise, though, that his attraction to her is even more explosive than it had been. Acting on their attraction is one thing, but Finn has to turn a profit to save his own family, and nothing-not even love-will get in his way. Donovan Brothers Book 1: Her Summer with the Marine Donovan Brothers Book 2: Chasing the Runaway Bride Donovan Brothers Book 3: Head Over Heels for the Boss

Brain Games Elkhonon Goldberg 2008 This book is crammed with puzzles designed to stimulate each of your brain's cognitive functions, keeping it strong and fit. Many different types of puzzles are included, and each of the five levels increases the challenge of solving them. Includes three self-evaluations that allow you to assess your improvement in areas such as focus, attention, memory, and more. With these puzzles, exercising your brain can be fun! The consultant is Dr. Elkhorn Goldberg, a Ph.D. neuropsychologist who created the Manhattan-based Cognitive Enhancement Program, a fitness center for the brain and who wrote The Executive Brain: Frontal Lobes and the Civilized Mind; and The Wisdom Paradox: How Your Mind Can Grow Stronger as Your Brain Grows Older.

Surviving Home A. American 2016-04-05 Book 2 of The Survivalist Series No electricity. No running water. No food. No end in sight. If life as you knew it changed in an instant, would you be prepared? In A. American's first novel, Going Home, readers were introduced to Morgan Carter, the resourceful, tough-as-nails survivalist who embarks on a treacherous 250-mile journey across Florida following the collapse of the nation's power grid. Now reunited with his loving wife and daughters in this follow-up to Going Home, Morgan knows that their happiness is fleeting, as the worst is yet to come. Though for years Morgan has been diligently preparing for emergency situations, many of his neighbors are completely unready for life in this strange new world—and they're starting to get restless. With the help of his closest companions, Morgan fights to keep his home secure—only to discover shocking information about the state of the nation in the process. Fans of James Wesley Rawles, William R. Forstchen's One Second After, and The End by G. Michael Hopf will revel in A. American's apocalyptic tale.

Profiting with Iron Conдор Options Michael Benklifa 2011-01-19 In a straightforward approach, Hanania Benklifa provides readers the practical knowledge needed to trade options conservatively in Profiting with Iron Conдор Options: Strategies from the Frontline for Trading in Up or Down Markets. The objectives are simple: make 2%-4% a month staying in the market as little as possible. Market experts use option condors to consistently earn monthly returns while trading conservatively and staying in the market as little as possible. Benklifa—who manages \$10+ million in conдор trades each month—shows you exactly how to run these trades and earn these returns, delivering all the details you need to master every nuance of this remarkable strategy. Benklifa shares option condors examples using market realities, not oversimplified abstractions. You'll learn how to handle real-life market dynamics that can dramatically impact results, including rising and falling volatility, changing bid-ask spreads, and distorted call parity. You'll learn how to profit in the sideways markets where conдор options are most widely used—and also in extreme-trending markets that offer their own surprising opportunities. Traders who focus on a specific type of trade have a history of outperforming stock pickers and directional investors. This book will give you that deep and usable level of knowledge about one of today's most well-proven strategies: option condors.

Guardian of the Dead Karen Healey 2010-04-01 "You're Ellie Spencer." I opened my mouth, just as he added, "And your eyes are opening." Seventeen-year-old Ellie Spencer is just like any other teenager at her boarding school. She hangs out with her best friend Kevin, she obsesses over Mark, a cute and mysterious bad boy, and her biggest worry is her paper deadline. But then everything changes. The news headlines are all abuzz about a local string of serial killings that all share the same morbid trademark: the victims were discovered with their eyes missing. Then a beautiful yet eerie woman enters Ellie's circle of friends and develops an unhealthy fascination with Kevin, and a crazed old man grabs Ellie in a public square and shoves a tattered Bible into her hands, exclaiming, "You need it. It will save your soul." Soon, Ellie finds herself plunged into a haunting world of vengeful fairies, Maori mythology, romance, betrayal, and an epic battle for immortality.

A Tale of Two Vampires Katie Macalister 2012-09-04 Time isn't always on a vampire's side.... Iolanthe Tennyson has had a very bad year—due in part to the very bad men in her life. So she's accepted her cousin's invitation to spend the summer in Austria to indulge her photography hobby. Rumors of a haunted forest there draw Iolanthe into the dark woods—and into the eighteenth century.... Nikola Czerny is a cursed man, forced by his half brothers to live forever as a Dark One. But his miserable existence takes an intriguing turn when a strange, babbling woman is thrown in his path. Iolanthe claims to know Nikola's daughter—three hundred years in the future. She also knows what fate—in the form of his murderous half brothers—has in store for him. If only she knew the consequences of changing the past to save one good, impossibly sexy vampire...

Securing Outer Space Natalie Bormann 2009-01-30 The challenges that space poses for political theory are profound. Yet until now, the exploration and utilization of space has generally reflected - but not challenged - the political patterns and impulses which characterized twentieth-century politics and International Relations. This edited volume analyses a number of controversial policies, and contentious strategies which have promoted space activities under the rubric of exploration and innovation, militarization and weaponization, colonization and commercialization. It places these policies and strategies in broader theoretical perspective in two key ways. Firstly, it engages in a reading of the discourses of space activities: exposing their meaning-producing practices; uncovering the narratives which convey certain space strategies as desirable, inevitable and seamless. Secondly, the essays suggest ways of understanding, and critically engaging with, the effects of particular space policies. The essays here seek to 'bring back space' into the realm of International Relations discourse, from which it has been largely removed, marginalized and silenced. The various chapters do this by highlighting how activities in outer space are always connected to earth-bound practices and performances of the every day. Securing Outer Space will be of great interest to students of space power, critical security studies and IR theory.

The Book of L G. Rozenberg 2012-12-06 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been cus tomarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the in terest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Red Hood Elana K. Arnold 2020-02-25 A dark, engrossing, blood-drenched tale of the familiar threats to female power—and one girl's journey to regain it. Five starred reviews greeted this powerful story from Elana K. Arnold, author of the Printz Honor winner Damsel. You are alone in the woods, seen only by the unblinking yellow moon. Your hands are empty. You are nearly naked. And the wolf is angry. Since her grandmother became her caretaker when she was four years old, Bisou Martel has lived a quiet life in a little house in Seattle. She's kept mostly to herself. She's been good. But then comes the night of homecoming, when she finds herself running for her life over roots and between trees, a fury of claws and teeth behind her. A wolf attacks. Bisou fights back. A new moon rises. And with it, questions. About the blood in Bisou's past, and on her hands as she stumbles home. About broken boys and vicious wolves. About girls lost in the woods—frightened, but not alone.
