Profiting with Iron Condor Options Michael Benklifa 2011-01-19 In a straightforward approach, Hanania Benklifa provides readers the practical knowledge needed to trade options conservatively in Profiting with Iron Condor Options: Strategies from the Frontline for Trading in Up or Down Markets. The objectives

are simple: make 2%-4% a month staying in the market as little as possible. Market experts use option condors to consistently earn monthly returns while trading conservatively and staying in the market as little as possible. Benklifa--who manages \$10+ million in condor trades each month--shows you exactly how to run these trades and earn these returns, delivering all the details you need to master every nuance of this remarkable strategy. Benklifa shares option condors examples using market realities, not oversimplified abstractions. You'll learn how to handle real-life market dynamics that can dramatically impact results, including rising and falling volatility, changing bid-ask spreads, and distorted call parity. You'll learn how to profit in the sideways markets where condor options are most widely used--and also in extreme-trending markets that offer their own surprising opportunities. Traders who focus on a specific type of trade have a history of outperforming stock pickers and directional investors. This book will give you that deep and usable level of knowledge about one of today's most well-proven strategies: option condors.

ODE TO A NIGHTINGALE John Keats

2017-08-07 This eBook edition of "Ode to a Nightingale" has been formatted to the highest digital standards and adjusted for readability on all devices. "Ode to a Nightingale" is either the garden of the Spaniards Inn, Hampstead, London, or, according to Keats' friend Charles Armitage Brown, under a plum tree in the garden of Keats House, also in Hampstead. According to Brown, a nightingale had built its nest near his home in the spring of 1819. Inspired by the bird's song, Keats composed the poem in one day. It soon became one of his 1819 odes and was first published in *Annals of the Fine Arts* the following July. "Ode to a Nightingale" is a personal poem that describes Keats's journey into the state of Negative Capability. The tone of the poem rejects the optimistic pursuit of pleasure found within Keats's earlier poems and explores the themes of nature, transience and mortality, the latter being particularly personal to Keats. The nightingale described within the poem experiences a type of death but does not actually die. Instead, the songbird is capable of living through its song, which is a fate that humans cannot expect. John Keats (1795-1821) was an English Romantic poet. The poetry of Keats is characterized by sensual imagery, most notably in the series of odes. Today his poems and letters are some of the most popular and most analyzed in English literature.

The Tribulations of Ross Young, Supernat PA Aj Sherwood 2021-05-27 "Company policy forbids me from exchanging my blood, my soul, or my firstborn child with customers..." When Ross starts working third-shift at a gas station, he doesn't think anything extraordinary will happen. He expects a lot of quiet shifts. Well, you know what they say about assumptions. One explosion later and he's the personal assistant to a vampire—who he admits is not only sexy, but the sane one-in charge of his supernatural clan's paperwork, and managing any trouble the members get into. Spoiler alert: the clan can get

into quite a bit of trouble. Ross is definitely not paid enough for this. Farewell Song (Modern Classics)

Rabindranath Tagore 2011-05-01 Rabindranath Tagore reinvented the Bengali novel with *Farewell Song*, blurring the lines between prose and poetry and creating an effervescent blend of romance and satire. Through Amit and Labanya and a brilliantly etched social milieu, the novel addresses contemporary debates about 'good' and 'bad' writing, the nature of love and conjugality, and the influence of Western culture on Bengali society. Set against the idyllic backdrop of Shillong and the mannered world of elite Calcutta society, this sparkling novel expresses the complex vision and the mastery of style that characterized Tagore's later works. Tagore was not only an immensely versatile poet; he was also a great short story writer, novelist, playwright, essayist, and composer of songs. Amartya Sen

A Tale of Two Vampires Katie Macalister

2012-09-04 Time isn't always on a vampire's side.... Iolanthe Tennyson has had a very bad year—due in part to the very bad men in her life. So she's accepted her cousin's invitation to spend the summer in Austria to indulge her photography hobby. Rumors of a haunted forest there draw Iolanthe into the dark woods—and into the eighteenth century.... Nikola Czerny is a cursed man, forced by his half brothers to live forever as a Dark One. But his miserable existence takes an intriguing turn when a strange, babbling woman is thrown in his path. Iolanthe claims to know Nikola's daughter—three hundred years in the future. She also knows what fate—in the form of his murderous half brothers—has in store for him. If only she knew the consequences of changing the past to save one good, impossibly sexy vampire...

Indoctrinating Minds Yvette Claire Rosser 2004

This is a story about Bangladesh, a nation borne out of high ideals of brotherhood, self-determination and song. Finds disturbing signs of increasing attempts, on the part of the political and religious establishment, to take over young minds. In this seminal work, she studies the collective loss of memory in Bangladesh, orchestrated, as she finds, by years of overt military coercion and promoted by an accelerating influence of Islamisation reflected, quite glaringly, in school textbooks.

The Routledge International Handbook of Religious Education Derek Davis 2013-02-01

How and what to teach about religion is controversial in every country. The *Routledge International Handbook of Religious Education* is the first book to comprehensively address the range of ways that major countries around the world teach religion in public and private educational institutions. It discusses how three models in particular seem to dominate the landscape. Countries with strong cultural traditions focused on a majority religion tend to adopt an "identification model," where instruction is provided only in the tenets of the majority religion, often to the detriment of other religions and their adherents. Countries with traditions that differentiate church and state tend to adopt a "separation model," thus either offering instruction in a wide range of religions, or in some cases teaching very little about religion, intentionally leaving it to religious institutions and the home setting to provide religious instruction. Still other countries attempt "managed pluralism," in which neither one, nor many, but rather a limited handful of major religious traditions are taught. Inevitably, there are countries which do not fit any of these dominant models and the range of methods touched upon in this book will surprise even the most enlightened reader. Religious instruction by educational institutions in 53 countries and regions of the world are explored by experts native to each country. These chapters discuss: Legal parameters in terms of subjective versus objective instruction in religion Constitutional, statutory, social and political contexts to religious approaches Distinctions between the

kinds of instruction permitted in elementary and secondary schools versus what is allowed in institutions of higher learning. Regional assessments which provide a welcome overview and comparison. This comprehensive and authoritative volume will appeal to educators, scholars, religious leaders, politicians, and others interested in how religion and education interface around the world.

Stopping by Woods on a Snowy Evening Robert Frost 2022-11-08 Just in time for its centennial, Robert Frost's cherished poem is showcased in a beautiful keepsake edition illustrated by the award-winning P.J. Lynch. The woods are lovely, dark and deep, But I have promises to keep, And miles to go before I sleep, And miles to go before I sleep. Whether memorized by schoolchildren or used to eulogize a president, "Stopping by Woods on a Snowy Evening," written in 1922 and published in 1923, has found a place as one of the best-loved and best-known American poems of the last hundred years. Now, six decades after the passing of its author, Robert Frost, celebrated artist P.J. Lynch brings this classic to new life with exquisitely detailed illustrations, evoking its iconic moments and wintry setting on the outskirts of a small village.

Qr Codes in Education David Hopkins 2013-05

These black and white squares have appeared everywhere from billboards at the side of the road, roof tops, cola cans, buses, magazines, etc. So why not in your library, textbook, assignment, project, or classroom display? The ability to use them to direct students or colleagues to online resources (presentation slides, websites, video, book location, etc.) is powerful and engaging and, when well implemented, can offer a level of interaction and engagement. It's not about what they are but about how we use them and what they can offer me in an educational setting. Whether you're a teacher, student, parent, school governor, or on the PTA, you ought to know about QR Codes - what they are, how they work, and how you can leverage them to increase student participation in and around the classroom. They offer the ability to share digital content from teacher to student, from student to student, and even from student to teacher. Go on, try it! This eBook will explain everything and put QR Codes in context. Using computers and technology in educational environments can be exciting and challenging. Implementing QR Codes within your student's learning is just that: exciting to see how students of all ages use and interact with them, and a challenge to make them usable, informative, applicable, and appropriate. This book draws on established examples from the commercial and corporate world as well as from established users of QR Codes at all levels of education; from primary schools up to Universities. Not only will you find examples of how QR Codes have been used but you will find out how you can design, create, and

implement your own QR Code treasure hunt, library resource, student group work, orientation activity, conference or event feedback, etc. David Hopkins has developed a respected reputation among educational technology networks for his use and research into the uses of QR Codes. He has been active with QR Codes at Bournemouth University and more recently at the University of Leicester since 2008. This book draws on David's QR Code experience with poster projects, classroom activities, and workshops and delivers these through a practical and up to date guide. "What are people saying about QR Codes in Education?" "All you ever wanted to know about using QR codes in Education is in this eBook. It takes you from the very basics of what these delightful square barcodes are, how to view the information they link to, how to easily create your own and, most importantly, a vast array of ideas on why you would want to use them! Whilst not a newcomer to QR codes, I came away from reading inspired and with new ideas of how QR codes could be used to enhance learning and teaching." - Sue Beckingham (@suebecks), Educational Developer, Sheffield Hallam University "The information is concise and user-friendly. The 'Planning, Creating, and Monitoring your QR Codes' chapter offers everything you need to get going with QR codes. Because of David's extensive experience, you won't have to learn the hard way. He's made it easy. The book is well-balanced, but keep in mind - David's examples and suggestions for using QR Codes in Education are very persuasive." - Brian Bishop (@bbishop262), CEO, Virtualwirks "David's book is a great place to begin for those educators who wish to start using QR codes in their classroom. The book begins by explaining what QR codes are and then delves into examples of use in education and Libraries. A veritable treasure trove of inspiration, the book should be read for this alone [chapter: QR Codes in the classroom] and I will be definitely trying some out." Reforms in Islamic Education Charlene Tan 2014-04-24 In recent times, there has been intense global interest on and scrutiny of Islamic education. In reforming Islamic schools, what are the key actions initiated and are they contested or negotiated by and among Muslims? This edited collection brings together leading scholars to explore current reforms in Islamic schools. Drawing together international case studies, Reforms in Islamic Education critically discusses the reforms, considering the motivations for them, nature of them and perceptions and experiences of people affected by them. The contributors also explore the tensions, resistance, contestations and negotiations between Muslims and non-Muslims, and among Muslims, in relation to the reforms. Highlighting the need to understand and critique reforms in Islamic schools within broad historical, political and socio-cultural contexts, this book is a valuable resource for academics, policymakers and educators.

Old Evidence and Core International Crimes

Morten Bergsmo 2012-11-19 It is often only years after the commission of core international crimes that prosecutions and investigations take place. This anthology addresses challenges associated with such delayed justice: the location, treatment, and assessment of old evidence. Part I considers the topic from the perspective of different actors involved in the prosecution of core international crimes at the domestic and international levels. Part II comprises chapters focusing on the efforts of the Bangladeshi authorities to investigate and prosecute international crimes perpetrated during the 1971 war. This book brings together experienced judges, prosecutors, lawyers, scientists, and commentators who have dealt with questions of old evidence in their work. Among the contributors are Shafique Ahmed, Andrew Cayley, David Cohen, Seena Fazel, Siri S. Frigaard, M. Amir-Ul Islam, Md. Shahinur Islam, Agnieszka Klonowiecka-Milart, Alphons M.M. Orie, Stephen J. Rapp, Patrick J. Treanor, Otto Triffterer and Martin Witteveen. The chapters describe the challenges encountered in practice and suggest concrete solutions that can be tailored to fit the circumstances of the case or country. By providing a comprehensive analysis of the relevant problems in this area and a

variety of views, this anthology will serve as an invaluable resource for criminal justice actors and researchers seeking to address questions of old evidence.
