Socialist Joy in the Writing of Langston Hughes Jonathan Scott 2006 "Explores Hughes's intellectual method and its relation to social activism. Examines his involvement with socialist movements of the 1920s and 1930s and contends that the goal of overthrowing white oppression produced a "socialist joy" expressed repeatedly in his later work, in spite of the anticommunist crusades of the cold war"--Provided by publisher.

Pronouns in Literature Alison Gibbons 2018-01-04 This edited collection brings together an international, interdisciplinary group of scholars who together offer cutting-edge insights into the complex roles, functions, and effects of pronouns in literary texts. The book engages with a range of text-types, including poetry, drama, and prose from different periods and regions, in English and in translation. Beginning with analyses of the first-person pronoun, it moves onto studies of the subject dynamics of first- and second-person, before considering plural modes of narration and how pronoun use can help to disperse narrative perspective. The volume then debates the functional constraints of pronouns in fictional contexts and finally reflects upon the theoretical

advancements presented in the collection. This innovative volume will appeal to students and scholars of linguistics, stylistics and cognitive poetics, narratology, theoretical and applied linguistics, psychology and literary criticism.

Shadow Archives Jean-Christophe Cloutier 2019-09-03 Recasting the history of African American literature, Shadow Archives brings to life a slew of newly discovered texts—including Claude McKay's *Amiable with Big Teeth*—to tell the stories of black special collections and their struggle for institutional recognition. Jean-Christophe Cloutier offers revelatory readings of major African American writers, including McKay, Richard Wright, Ann Petry, and Ralph Ellison, and provides a nuanced view of how archival methodology, access, and the power dynamics of acquisitions shape literary history. Shadow Archives argues that the notion of the archive is crucial to our understanding of postwar African American literary history. Cloutier combines his own experiences as a researcher and archivist with a theoretically rich account of the archive to offer a pioneering study of the importance of African American authors' archival practices and how these shaped their writing. Given the lack of institutions dedicated to the black experience, the novel became an alternative site of historical

preservation, a means to ensure both individual legacy and group survival. Such archivism manifests in the work of these authors through evolving lifecycles where documents undergo repurposing, revision, insertion, falsification, transformation, and fictionalization, sometimes across decades. An innovative interdisciplinary consideration of literary papers, Shadow Archives proposes new ways for literary scholars to engage with the archive.

Langston Hughes W. Jason Miller 2020-01-24 As the first black author in America to make his living exclusively by writing, Langston Hughes inspired a generation of writers and activists. One of the pioneers of jazz poetry, Hughes led the Harlem Renaissance, while Martin Luther King, Jr., invoked Hughes's signature metaphor of dreaming in his speeches. In this new biography, W. Jason Miller illuminates Hughes's status as an international literary figure through a compelling look at the relationship between his extraordinary life and his canonical works. Drawing on unpublished letters and manuscripts, Miller addresses Hughes's often ignored contributions to the Civil Rights Movement of the 1960s, as well as his complex and well-guarded sexuality, and repositions him as a writer rather than merely the most beloved African American poet of the twentieth century. The Making of the New Negro Anna Pochmara 2011 The Making of the New Negro examines black masculinity in the period of the New Negro/Harlem Renaissance, which for many decades did not attract a lot of scholarly attention, until, in the 1990s, many scholars discovered how complex, significant, and fascinating it was. Using African American published texts, American archives and unpublished writings, and contemporaneous European discourses, this book focuses both on the canonical figures of the New Negro Movement and African American culture, such as W.E.B. Du Bois, Booker T. Washington, Alain Locke, and Richard

Wright, and on writers who have not received as much scholarly attention despite their significance for the movement, such as Wallace Thurman. Its perspective combines gender, sexuality, and race studies with a thorough literary analysis and historicist investigation, an approach that has not been extensively applied to analyze the New Negro Renaissance.

Langston's Salvation Wallace D. Best 2019-02-01 Winner of the 2018 Award for Excellence in the Study of Religion in Textual Studies, presented by the American Academy of Religion A new perspective on the role of religion in the work of Langston Hughes Langston's Salvation offers a fascinating exploration into the religious thought of Langston Hughes. Known for his poetry, plays, and social activism, the importance of religion in Hughes' work has historically been ignored or dismissed. This book puts this aspect of Hughes work front and center, placing it into the wider context of twentieth-century American and African American religious cultures. Best brings to life the religious orientation of Hughes work, illuminating how this powerful figure helped to expand the definition of African American religion during this time. Best argues that contrary to popular perception, Hughes was neither an avowed atheist nor unconcerned with religious matters. He demonstrates that Hughes' religious writing helps to situate him and other black writers as important participants in a broader national discussion about race and religion in America. Through a rigorous analysis that includes attention to Hughes's unpublished religious poems, Langston's Salvation reveals new insights into Hughes's body of work, and demonstrates that while Hughes is seen as one of the most important voices of the Harlem Renaissance, his writing also needs to be understood within the context of twentieth-century American religious liberalism and of the larger modernist movement. Combining historical and literary

analyses with biographical explorations of Langston Hughes as a writer and individual, Langston's *Salvation* opens a space to read Langston Hughes' writing religiously, in order to fully understand the writer and the world he inhabited.

Redefining Liberal Arts Education in the Twenty-First Century

Redefining Liberal Arts Education in the Twenty-First Century delves into the essential nature of the liberal arts in America today. During a time when the STEM fields of science, technology, engineering, and math dominate the narrative around the future of higher education, the liberal arts remain vital but frequently

dismissed academic pursuits. While STEAM has emerged as a popular acronym, the arts get added to the discussion in a way that is often rhetorical at best. Written by scholars from a diversity of fields and institutions, the essays in this collection legitimize the liberal arts and offer visions for the role of these disciplines in the modern world. From the arts, pedagogy, and writing to social justice, the digital humanities, and the African American experience, the essays that comprise *Redefining Liberal Arts Education in the Twenty-First Century* bring attention to the vast array of ways in which the liberal arts continue to be fundamental parts of any education. In an increasingly transactional environment, in which students believe a degree must lead to a specific job and set income, colleges and universities should take heed of the advice from these scholars. The liberal arts do not lend themselves to the capacity to do a single job, but to do any job. The effective teaching of critical and analytical thinking, writing, and speaking creates educated citizens. In a divisive twenty-first-century world, such a citizenry holds the tools to maintain a free society, redefining the liberal arts in a manner that may be key to the American republic.

Dream Boogie Langston Hughes 2017-11-17 Langston Hughes was an American poet, social activist, novelist, playwright, and a columnist. He famously wrote about the period, which was later paraphrased as "when

Harlem was in vogue".

Selected Letters of Langston Hughes Langston Hughes 2015-02-10 This is the first comprehensive selection from the correspondence of the iconic and beloved Langston Hughes. It offers a life in letters that showcases his many struggles as well as his memorable achievements. Arranged by decade and linked by expert commentary, the volume guides us through Hughes's journey in all its aspects: personal, political, practical, and—above all—literary. His letters range from those written to family members, notably his father (who opposed Langston's literary ambitions), and to friends, fellow artists, critics, and readers who sought him out by mail. These figures include personalities such as Carl Van Vechten, Blanche Knopf, Zora Neale Hurston, Arna Bontemps, Vachel Lindsay, Ezra Pound, Richard Wright, Kurt Weill, Carl Sandburg, Gwendolyn Brooks, James Baldwin, Martin Luther King, Jr., Alice Walker, Amiri Baraka, and Muhammad Ali. The letters tell the story of a determined poet precociously finding his mature voice; struggling to realize his literary goals in an environment generally hostile to blacks; reaching out bravely to the young and challenging them to aspire beyond the bonds of segregation; using his artistic prestige to serve the disenfranchised and the cause of social justice; irrepressibly laughing at the world despite its quirks and humiliations. Venturing bravely on what he called the "big sea" of life, Hughes made his way forward always aware that his only hope of self-fulfillment and a sense of personal integrity lay in diligently pursuing his literary vocation. Hughes's voice in these pages, enhanced by photographs and quotations from his poetry, allows us to know him intimately and gives us an unusually rich picture of this generous, visionary, gratifyingly good man who was also a genius of modern American letters.

Reading the Postwar Future Kirrily Freeman 2019-10-17 This original collection explores a number of significant texts produced in 1944 that define that year as a textual turning point when overlapping and diverging visions of a new world emerged. The questions posed at that moment, about capitalism, race, empire, nation and cultural modernity gave rise to debates that defined the global politics of their era and continue to delineate our own. Highlighting the goals, agendas and priorities that emerged for artists, intellectuals and politicians in 1944, *Reading the Postwar Future* rethinks the intellectual history of the 20th century and the way 1944's texts shaped the contours of the postwar world. This is essential reading for any student or scholar of the intellectual, political, economic and cultural history of the postwar era.

Accessing the Classics: Great Reads for Adults, Teens, and English Language Learners La Vergne Rosow 2005-12-30 Help readers improve reading skills while stimulating their appreciation and increasing their understanding of great literature. Using a

scaffolding approach, this guide leads readers from simple and engaging reads to more challenging texts, and simultaneously cultivates their interest and skills. An invaluable resource for middle and high school, ABE and ESL educators, as well as for readers' advisors. All readers—even those still learning to speak English—can enjoy the delights and benefits of great literature with the help of this motivational and practical book guide. Rosow takes you on a journey through the history of Western literature, beginning with ancient myths and moving to medieval tales and classics of the Renaissance, Romantic Movement, and Modernism. Along the way, she shows you how to give readers easy access to some of the best literature of all time. Scores of collections focus on such ancient and enduring stories as Gilgamesh, Beowulf, the tales of Chaucer; historical masterpieces of William Shakespeare, Jane Austen, Edgar Allan Poe, Charles Dickens; and stellar names of more recent times, such as Virginia Woolf, John Steinbeck, Ernest Hemingway, and J.R.R. Tolkien. Each carefully selected collection lists an assortment of titles, ranging in reading level and arranged progressively from simple renditions, such as picture book re-tellings, through more advanced selections and readings where audio versions and simpler formatting support the reader, and on to the most challenging reads. Author profiles and narrative, as well as detailed descriptions of each title provide further insights into the story lines and features of the books; while building a scaffold of reading experience and knowledge to help readers better understand the texts. For example, the Mark Twain collection begins with a brief biographical sketch of the author, followed by descriptions of two illustrated books about the author and two readers' theatre skits based on his work. A collection of Twain's short stories is recommended next, and then several illustrated versions of his novels, and an illustrated edition of Twain's memoir, *Life on the Mississippi*, which is supported by an audiotope version. Each recommended title is rated as start here, next read, support here, or challenging read; and related

reads, and audio and video versions are listed when appropriate. The author also notes author and student favorites, titles with exceptional illustrations, and other features of interest. Focus is on authors and titles of the Western canon that are generally available in library collections. Because some of the titles cited are older editions, this is a valuable collection development tool in libraries; as well as an essential resource for readers' advisors, Adult Basic Education, and English as Second Language educators, and young adult educators and librarians. Young adult and adult or Grades 9 and up.

New Voices on the Harlem Renaissance Australia Tarver 2006 This book expands the discourse on the Harlem Renaissance into more recent crucial areas for literary scholars, college instructors, graduate students, upper-level undergraduates, and Harlem Renaissance aficionados. These selected essays, authored by mostly new critics in Harlem Renaissance studies, address critical discourse in race, cultural studies, feminist studies, identity politics, queer theory, and rhetoric and pedagogy. While some canonical writers are included, such as Langston Hughes and Alain Locke, others such as Dorothy West, Jessie Fauset, and Wallace Thurman have equal footing. Illustrations from several books and journals help demonstrate the vibrancy of this era. Australia Tarver is Associate Professor of English at Texas Christian University. Paula C. Barnes is an Associate Professor of English at Hampton University.

The Best of Simple Langston Hughes 2015-10-13 Langston Hughes's stories about Jesse B. Semple--first composed for a weekly column in the *Chicago Defender* and then collected in *Simple Speaks His Mind*, *Simple Takes a Wife*, and *Simple Stakes a Claim*--have been read and loved by hundreds of thousands of readers. In *The Best of Simple*, the author picked his favorites from these earlier volumes, stories that not only have proved popular but are now part of a great and growing literary tradition. Simple might be considered an Everyman for black Americans. Hughes

himself wrote: "...these tales are about a great many people-- although they are stories about no specific persons as such. But it is impossible to live in Harlem and not know at least a hundred Simple, fifty Joyces, twenty-five Zaritas, and several Cousin Minnies--or reasonable facsimiles thereof." As Arnold Rampersad has written, Simple is "one of the most memorable and winning characters in the annals of American literature, justly regarded as one of Hughes's most inspired creations."

The Worlds of Langston Hughes Vera M. Kutzinski 2012-10-15 The poet Langston Hughes was a tireless world traveler and a prolific translator, editor, and marketer. Translations of his own writings traveled even more widely than he did, earning him adulation throughout Europe, Asia, and especially the Americas. In *The Worlds of Langston Hughes*, Vera Kutzinski contends that, for writers who are part of the African diaspora, translation is more than just a literary practice: it is a fact of life and a way of thinking. Focusing on Hughes's autobiographies, translations of his poetry, his own translations, and the political lyrics that brought him to the attention of the infamous McCarthy Committee, she shows that translating and being translated—and often mistranslated—are as vital to Hughes's own poetics as they are to understanding the historical network of cultural relations known as literary modernism. As Kutzinski maps the trajectory of Hughes's writings across Europe and the Americas, we see the remarkable extent to which the translations of his poetry were in conversation with the work of other modernist writers. Kutzinski spotlights cities whose role as meeting places for modernists from all over the world has yet to be fully explored: Madrid, Havana, Buenos Aires, Mexico City, and of course Harlem. The result is a fresh look at Hughes, not as a solitary author who wrote in a single language,

but as an international figure at the heart of a global intellectual and artistic formation.
