Design of Intelligent Applications using Machine Learning and Deep Learning Techniques
Ramchandra Sharad

Mangrulkar 2021-08-15
Machine learning (ML) and deep learning (DL) algorithms are invaluable resources for Industry 4.0 and allied areas and are considered as the future of computing. A subfield called neural networks, to recognize and understand patterns in data, helps a machine carry out tasks in a

Downloaded from
aeropostalemexico.mx on

guest

manner similar to humans. The intelligent models developed using ML and DL are effectively designed and are fully investigated – bringing in practical applications in many fields such as health care, agriculture and security. These algorithms can only be successfully applied in the context of data computing and analysis. Today, ML and DL have created conditions for potential developments in detection and prediction. Apart from these domains, ML and DL are found useful in analysing the social behaviour of humans. With the advancements in the amount and type of data available for use, it became necessary to build a means to process the data and that is where deep neural networks prove their importance. These networks are capable of

handling a large amount of data in such fields as finance and images. This book also exploits key applications in Industry 4.0 including:

- Fundamental models, issues and challenges in ML and DL.
- Comprehensive analyses and probabilistic approaches for ML and DL.
- Various applications in healthcare predictions such as mental health, cancer, thyroid disease, lifestyle disease and cardiac arrhythmia.
- Industry 4.0 applications such as facial recognition, feather classification, water stress prediction, deforestation control, tourism and social networking.
- Security aspects of Industry 4.0 applications suggest remedial actions against possible attacks and prediction of associated risks.

- Information is presented in

accessible way for students, researchers and scientists, business innovators and entrepreneurs, sustainable assessment and management professionals. This book equips readers with a knowledge of data analytics, ML and DL techniques for applications defined under the umbrella of Industry 4.0. This book offers comprehensive coverage, promising ideas and outstanding research contributions, supporting further development of ML and DL approaches by applying intelligence in various applications.

Yugantar: The Dream of Bharatavarsha Takes Shape 2300 Years Ago

Raghavan Srinivasan
2020-11-25 The fourth century BCE is full of dangers and opportunities. Old republics are giving way to empires and cities.

'Naastik' sects are challenging the established varna system. The intellectual life of India is bristling like new shoots after the monsoon. The domination of the Kshatriyas and the Brahmanas is being challenged. State power is up for grabs. And the Macedonians are at the gates! Most people believe that

Bharatavarsha is only a dream. But not the Yugantar, a brotherhood of the wisest and most selfless thinkers of ancient India.

Interesting turn of events bring ordinary people from different parts of the subcontinent into the fold of the Yugantar -- a rebel blacksmith from Ujjayini, a Siddha doctor from Madurai; a doughty mariner from Muziris; a trader from Pataliputra and a widow nun from Kausambi. They

represent a microcosm of the sub-continent. Each of them is drawn towards the Yugantar by a strange turn of events. Each has a prowess which the Yugantar can mould into a formidable force. They converge in Takshashila, the centre of learning and transformation. This is the story of how their wit and determination contribute to a united Bharatavarsha.

The Scout Shirish Thorat 2019-01-10 The Scout traces the journey of David Headley, son of a Pakistani aristocrat and an American mother who easily straddled both the Islamic and the western worlds. It is a tale of deception and deceit, of audacity and ingenuity and a detailed account of a man who coldly and systematically conducted a series of reconnaissance missions that perfected the most

vicious and daring assault ever on the city of Mumbai. Investigated by two professionals in the field of anti terrorist operations, the Scout is a painstakingly researched and authentic account of the life and times of David Headley right until the time of his arrest whilst collaborating with the Al Queda and planning a public massacre in Denmark. The book includes heretofore unknown documents, emails and pictures and exclusive details which offer fascinating reading to everyone from the common man to law enforcement and intelligence officials worldwide.

are the proceedings of the International Conference on ISMAC-CVB, held in Palladam, India, in May 2018. The book focuses on research to design new analysis paradigms and computational solutions for quantification of information provided by object recognition, scene understanding of computer vision and different algorithms like convolutional neural networks to allow computers to recognize and detect objects in images with unprecedented accuracy and to even understand the relationships between them. The proceedings treat the convergence of ISMAC in Computational Vision and Bioengineering technology and includes ideas and techniques like 3D sensing, human visual perception, scene understanding, human motion detection and

analysis, visualization and graphical data presentation and a very wide range of sensor modalities in terms of surveillance, wearable applications, home automation etc. ISMAC-CVB is a forum for leading academic scientists, researchers and research scholars to exchange and share their experiences and research results about all aspects of computational vision and bioengineering.

The Path of Sukshmaloka
Nihar Bhonsule
2021-01-22 3102 BC Evil forces are everywhere! Existence itself has fallen prey to an imbalance! In this chaos, the Dharmayodhas use their boons to guard existence. Harshwardhana, the leader, believes they

will win... Until he falls upon a sinister secret of the dark forces. Centuries later... Prithvi Sen is a regular college-going boy. His growth from childhood to adulthood has been plagued by an uncanny disease. Although medicines have it under control, Prithvi feels that the illness hasn't revealed its truest nature yet. During his existential crisis, a drastic series of events occur and bring the most unexpected twist into his life. Could there be a link between Prithvi and the Dharmayodhas?

undernourished. What will it take for India to bridge this great divide? When will the fruits of development reach the poorest of the poor; and wipe the tears from the eyes of every man; woman and child; as Mahatma Gandhi had dreamt? And how should this; our greatest challenge ever; be negotiated? In this extraordinarily inspiring and visionary book; N.R. Narayana Murthy; who pioneered; designed and executed the Global Delivery Model that has become the cornerstone of India's success in information technology services outsourcing; shows us that a society working for the greatest welfare of the greatest number—samasta jananam sukhino bhavantu—must focus on two simple things: values and good leadership. Drawing on the remarkable Infosys

story and the lessons learnt from the two decades of post-reform India; Narayana Murthy lays down the ground rules that must be followed if future generations are to inherit a truly progressive nation. Built on Narayana Murthy's lectures delivered around the world; A Better India: A Better World is a manifesto for the youth; the architects of the future; and a compelling argument for why a better India holds the key to a better world.

the candidates. The questions of reasoning asked in various competitive examinations are not easy to solve without having enough practice. The Hand on Guide to Analytical Reasoning & Logical Reasoning will help aspirants master the 'Tricks of the Trade' as it covers analytical reasoning and logical reasoning comprehensively. This book has been divided into two Sections – Analytical Reasoning and Logical Reasoning each sub-divided into number of chapters with different types of questions of multiple patterns asked in various exams. The Analytical Reasoning section covers Seating Arrangement, Complex Arrangement, Ranking & Time Sequence Test, Blood Relations, Direction Sense Test, Conditions & Grouping

and Simple & Coded Inequality whereas the Logical Reasoning section covers Syllogism, Statement & Assumptions, Statement & Arguments, Passage & Conclusion, Statement & Course of Action, Decision Making, Assertion & Reason, Cause & Effect and Input-Output. Ample numbers of solved problems have been covered in each chapter followed by practice exercises at the end to help aspirants revised and practice the concepts discussed in each chapter. Also the book contains previous years' solved questions of different competitive examinations like CAT, MAT, CMAT, Bank (PO/Clerk), UPSC, SSC and other state PSC Exams, etc to help aspirants get an insight into the types of reasoning questions asked. The book will be

highly useful for aspirants preparing for Management (CAT, XAT, CMAT, IIFT, SNAP & other), Bank (PO & Clerk), SSC (CGL/CP0), UPSC & other state PSC Exams, etc. As the book covers Logical and Analytical Reasoning both in detail with ample number of solved problems, it for sure will help aspirants prepare both the types in a thorough manner and will act as a hand on guide to analytical reasoning & logical reasoning.

Issues in Urban

Development Dr. R. N. Sharma 2001 "The genesis of Navi Mumbai in 1970 was a result of the much felt need by the Maharashtra government to develop a new metro-centre as a counter magnet to the mega city - Bombay (now Mumbai). Since three decades had elapsed, it was considered pertinent to

put together different perspectives on the evolution of Navi Mumbai. For this purpose, distinguished planners, administrators and academics--directly or indirectly associated with the project--assembled at a seminar organised by the Tata Institute of Social Sciences, Mumbai in 1999. The book, which is an outcome of the seminar, is invaluable for all those interested in urban planning, urban sociology and economy of developed human settlements. It provides valuable data on various socio-economic and planning aspects involved in shaping of the new city."

inception, blockchain has evolved to become a crucial trending technology that massively impacts the fast-paced digital world. It has been a game-changing technology that is underpinned with cryptocurrencies like Ethereum and Bitcoin that eventually closed the doors for hacking activities. As blockchain is utilized across areas such as banking, voting, finance, healthcare, and manufacturing, it is important to examine the current trends, difficulties, opportunities, and future directions in order to utilize its full potential. Blockchain Technologies and Applications for Digital Governance addresses the impacts and future trends of blockchain, particularly for digital governance, and demonstrates the

applications of blockchain in digital governance using case studies. Covering a range of topics from cybersecurity to real estate tokenization, it is ideal for industry professionals, researchers, academicians, instructors, practitioners, and students.

an up-to-date treatment of all aspects of the design and implementation of systems for gathering, indexing, and searching documents; methods for evaluating systems; and an introduction to the use of machine learning methods on text collections. All the important ideas are explained using examples and figures, making it perfect for introductory courses in information retrieval for advanced undergraduates and graduate students in computer science. Based on feedback from extensive classroom experience, the book has been carefully structured in order to make teaching more natural and effective. Slides and additional exercises (with solutions for lecturers) are also available through the book's supporting website to

help course instructors prepare their lectures. **Seven Social Sins** J.S. Rajput 2012-11-10 This book has been prepared with great expectations. The relevance of dynamism in Gandhian thought, percept and vision could guide the concerned citizens and policy makers in the search for solutions. Each of the seven sins identified gets organically linked to the remaining six. Hopefully, it would provide sparks for further study and analysis of how the ideology of progress that India deserves could evolve, taking the best from outside but retaining the flavour of the indigenous thought and wisdom. Indian democracy, with all its lacunae and inadequacies, has certainly made aware a large chunk of its citizens of the

responsibilities and duties. The young are now alert to their own role that the country expects them to perform. The idealism of the youth, strengthened with inputs from Gandhian thought and approach, could be sustained on a strong base of value development strategies. An emerging knowledge society must derive strength from its existing cognitive capital and its analysis and contemporary relevance could always bring in substantial additions and advancements. Those, to whom this volume could reach, may be better prepared to contribute effectively to the cause of the nation building.

26/11 Mumbai Attacked

Ashish Khetan 2009-02-01
Bringing together the careful research and analyses of renowned journalists and police officials, 26/11 Mumbai

Attacked explicates the reality behind the brazen attack on India's sovereignty in November 2008 when ten heavily armed terrorists held an entire city to ransom by the sheer force of their zealotry. The scene-by-scene accounts, incisive analyses, and an exclusive interview with a LeT representative along with a description of its training camp in Muridke, Pakistan, reveal how the failure of Indian intelligence agencies landed Mumbai in the quagmire of terrorism. Paying homage to the brave security officers who lost their lives fighting the terrorists, 26/11 Mumbai Attacked reiterates the chilling reality that India is under grave threat and the clock is ticking before the next big attack.

Dongri to Dubai - Six Decades of the Mumbai Mafia Hussain Zaidi
2012-08-10 Dongri to Dubai is the first ever attempt to chronicle the history of the Mumbai mafia. It is the story of notorious gangsters

like Haji Mastan, Karim Lala, Varadarajan Mudaliar, Chhota Rajan, Abu Salem, but above all, it is the story of a young man who went astray despite having a father in the police force. Dawood Ibrahim was initiated into crime as a pawn in the hands of the Mumbai police and went on to wipe out the competition and eventually became the Mumbai police's own nemesis. The narrative encompasses several milestones in the history of crime in India, from the rise of the Pathans, formation of the Dawood gang, the first ever supari, mafia's nefarious role in Bollywood, Dawood's move to Karachi, and Pakistan's subsequent alleged role in sheltering one of the most wanted persons in the world. This story is primarily about how a boy from Dongri became

don in Dubai, and captures his bravado, cunningness, focus, ambition, and lust for power in a gripping narrative. The meticulously researched book provides an in-depth and comprehensive account of the mafia's games of supremacy and internecine warfare.

Applications of Advanced Computing in Systems

Rajesh Kumar 2021-04-24

This book covers advances in system, control and computing. This book gathers selected high-quality research papers presented at the International Conference on Advances in Systems, Control and Computing (AISCC 2020), held at MNIT Jaipur during February 27–28, 2020. The first part is advances in systems and it is dedicated to applications of the artificial neural networks, evolutionary

computation, swarm intelligence, artificial immune systems, fuzzy system, autonomous and multi-agent systems, machine learning, other intelligent systems and related areas. In the second part, machine learning and other intelligent algorithms for design of control/control analysis are covered. The last part covers advancements, modifications, improvements and applications of intelligent algorithms.
