Design of Intelligent Applications using Machine Learning and Deep Learning

Techniques Ramchandra Sharad Mangrulkar 2021-08-15 Machine learning (ML) and deep learning (DL) algorithms are invaluable resources for Industry 4.0 and allied areas and are considered as the future of computing. A subfield called neural networks, to recognize and understand patterns in data, helps a machine carry out tasks in a manner similar to humans. The intelligent models developed using ML and DL are effectively designed and are fully investigated – bringing in practical applications in many fields such as health care, agriculture and security. These algorithms can only be successfully applied in the context of data computing and analysis. Today, ML and DL have created conditions for potential developments in detection and prediction. Apart from these domains, ML and DL are found useful in analysing the social behaviour of humans. With the advancements in the amount and type of data available for use, it became necessary to build a means to process the data and that is where deep neural networks prove their importance. These networks are capable of handling a large amount of data in such fields as finance and images. This book also exploits key applications in Industry 4.0 including: · Fundamental models, issues and challenges in ML and DL. · Comprehensive analyses and probabilistic approaches for ML and DL. · Various applications in healthcare predictions such as mental health, cancer, thyroid disease, lifestyle disease and cardiac arrhythmia. · Industry 4.0 applications such as facial recognition, feather classification, water stress prediction, deforestation control, tourism and social networking. · Security aspects of Industry 4.0 applications suggest remedial actions against possible attacks and prediction of associated risks. - Information is presented in an accessible way for students, researchers and scientists, business innovators and entrepreneurs, sustainable assessment and management professionals. This book equips readers with a knowledge of data analytics, ML and DL techniques for applications defined under the umbrella of Industry 4.0. This book offers comprehensive coverage, promising ideas and outstanding research contributions, supporting further development of ML and DL approaches by applying intelligence in various applications.

A BETTER INDIA A BETTER WORLD N R Narayana Murthy 2010-03-08 Visit the website for A Better India; A Better World; here. With one of the highest GDP growth rates in the world and an array of recent achievements in technology; industry and entrepreneurship; India strides confidently towards the future. But; in the world's largest democracy; not everyone is equally fortunate. More than 300 million Indians are still prey to hunger; illiteracy and disease; and 51 per cent of India's children are still undernourished. What will it take for India to bridge this great divide? When will the fruits of development reach the poorest of the poor; and wipe the tears from the eyes of every man; woman and child; as Mahatma Gandhi had dreamt? And how should this; our greatest challenge ever; be negotiated? In this extraordinarily inspiring and visionary book; N.R. Narayana Murthy; who pioneered; designed and executed the Global Delivery Model that has become the cornerstone of India's success in information technology services outsourcing; shows us that a society working for the greatest welfare of the greatest number—samasta jananam sukhino bhavantu—must focus on two simple things: values and good leadership. Drawing on the remarkable Infosys story and the lessons learnt from the two decades of post-reform India; Narayana Murthy lays down the ground rules that must be followed if future generations are to inherit a truly progressive nation. Built on Narayana Murthy's lectures delivered around the world; A Better India: A Better World is a manifesto for the youth; the architects of the future; and a compelling argument for why a better India holds the key to a better world.

Face To Face MAT With 25 Years Solved Papers 2022 BS Sijwalii 2021-11-25 1. FACE 2 FACE MAT is a complete collection of 25 years' Solved Papers 2. The book is divided into 5 section 3. Solved Papers are provided for the practice of the question 4. We detailed answers are given for every question for better understanding The "Face 2 Face MAT 25 years Solved Papers 2021 – 1997" has been prepared for keeping in minds the needs of those who wish to streamline their preparation for MAT examination in order to gain entry in the business school of their choice. The current edition serves as a focused study resource that follows the methodical approach and provides comprehensive treatment in the 5 sections as prescribed by the board. Lastly, this book provides MAT Solved Papers [2021-2018] for quick revision & in depth understanding of the concepts along with detailed answers. TOC MAT SOLVED PAPER (Sept 2021), MAT SOLVED PAPER (Sept 2020), MAT SOLVE PAPER (May 2019), MAT SOLVED PAPER (May 2018), SECTION I: (Language & Comprehension), SECTION II: Intelligence & Critical Thinking, SECTION III: Mathematical Skills, SECTION IV: Data Analysis & Sufficiency, SECTION V: Indian & Global Environment.

Applications of Advanced Computing in Systems Rajesh Kumar 2021-04-24 This book covers advances in system, control and computing. This book gathers selected high-quality research papers presented at the International Conference on Advances in Systems, Control and Computing (AISCC 2020), held at MNIT Jaipur during February 27–28, 2020. The first part is advances in systems and it is dedicated to applications of the artificial neural networks, evolutionary computation, swarm intelligence, artificial immune systems, fuzzy system, autonomous and multi-agent systems, machine learning, other intelligent systems and related areas. In the second part, machine learning and other intelligent algorithms for design of control/control analysis are covered. The last part covers advancements, modifications, improvements and applications of intelligent algorithms.

Seven Social Sins J.S. Rajput 2012-11-10 This book has been prepared with great expectations. The relevance of dynamism in Gandhian thought, percept and vision could guide the concerned citizens and policy makers in the search for solutions. Each of the seven sins identified gets organically linked to the remaining six. Hopefully, it would provide sparks for further study and analysis of how the ideology of progress that India deserves could evolve, taking the best from outside but retaining the flavour of the indigenous thought and wisdom. Indian democracy, with all its lacunae and inadequacies, has certainly made aware a large chunk of its citizens of their responsibilities and duties. The young are now alert to their own role that the country expects them to perform. The idealism of the youth, strengthened with inputs from Gandhian thought and approach, could be sustained on a strong base of value development strategies. An emerging knowledge society must derive strength from its existing cognitive capital and its analysis and contemporary relevance could always bring in substantial additions and advancements. Those, to whom this volume could reach, may be better prepared to contribute effectively to the cause of the nation building.

Proceedings of the International Conference on ISMAC in Computational Vision and Bio-Engineering 2018 (ISMAL-CVB) Durai Pandian 2019-01-01 These are the proceedings of the International Conference on ISMAC-CVB, held in Palladam, India, in May 2018. The book focuses on research to design new analysis paradigms and computational solutions for quantification of information provided by object recognition, scene understanding of computer vision and different algorithms like convolutional neural networks to allow computers to recognize and detect objects in images with unprecedented accuracy and to even understand the relationships between them. The proceedings treat the convergence of ISMAC in Computational Vision and Bioengineering technology and includes ideas and techniques like 3D sensing, human visual perception, scene understanding, human motion detection and analysis, visualization and graphical data presentation and a very wide range of sensor modalities in terms of surveillance, wearable applications, home automation etc. ISMAC-CVB is a forum for leading academic scientists, researchers and research scholars to exchange and share their experiences and research results about all aspects of computational vision and bioengineering.

Analytical & Logical Reasoning For CAT & Other Management Entrance Tests BS Sijwalii 2018-04-20 Reasoning which is a equally weighed section in many competitive examinations tests the thinking power and mind applicability skills of the candidates. The questions of reasoning asked in various competitive examinations are not easy to solve without having enough practice. The Hand on Guide to Analytical Reasoning & Logical Reasoning will help aspirants master the 'Tricks of the Trade' as it covers analytical reasoning and logical reasoning comprehensively. This book has been divided into two Sections – Analytical Reasoning and Logical Reasoning each sub-divided into number of chapters with different types of questions of multiple patterns asked in various exams. The Analytical Reasoning section covers Seating Arrangement, Complex Arrangement, Ranking & Time Sequence Test, Blood Relations, Direction Sense Test, Conditions & Grouping and Simple & Coded Inequality whereas the Logical Reasoning section covers Syllogism, Statement & Assumptions, Statement & Arguments, Passage & Conclusion, Statement & Course of Action, Decision Making, Assertion & Reason, Cause & Effect and Input-Output. Ample numbers of solved problems have been covered in each chapter followed by practice exercises at the end to help aspirants revised and practice the concepts discussed in each chapter. Also the book contains previous years' solved questions of different competitive examinations like CAT, MAT, CMAT, Bank (PO/Clerk), UPSC, SSC and other state PSC Exams, etc to help aspirants get an insight into the types of reasoning questions asked. The book will be highly useful for aspirants preparing for Management (CAT, XAT, CMAT, IIFT, SNAP & other), Bank (PO & Clerk), SSC (CGL/CPO), UPSC & other state PSC Exams, etc. As the book covers Logical and Analytical Reasoning both in detail with ample number of solved problems, it for sure will help aspirants prepare both the types in a thorough manner and will act as a hand on guide to

analytical reasoning & logical reasoning.

The Legal Right to Housing in India Anindita Mukherjee 2019-07-31 Examines the benefits of seeking legal recognition for the right to housing, within the Indian legal context.

Dongri to Dubai - Six Decades of the Mumbai Mafia Hussain Zaidi 2012-08-10 Dongri to Dubai is the first ever attempt to chronicle the history of the Mumbai mafia. It is the story of notorious gangsters like Haji Mastan, Karim Lala, Varadarajan Mudaliar, Chhota Rajan, Abu Salem, but above all, it is the story of a young man who went astray despite having a father in the police force. Dawood Ibrahim was initiated into crime as a pawn in the hands of the Mumbai police and went on to wipe out the competition and eventually became the Mumbai police's own nemesis. The narrative encompasses several milestones in the history of crime in India, from the rise of the Pathans, formation of the Dawood gang, the first ever supari, mafia's nefarious role in Bollywood, Dawood's move to Karachi, and Pakistan's subsequent alleged role in sheltering one of the most wanted persons in the world. This story is primarily about how a boy from Dongri became a don in Dubai, and captures his bravado, cunningness, focus, ambition, and lust for power in a gripping narrative. The meticulously researched book provides an in-depth and comprehensive account of the mafia's games of supremacy and internecine warfare.

The Republic of India Alan Gledhill 2013

The Landlady (A Roald Dahl Short Story) Roald Dahl 2012-09-13 The Landlady is a brilliant gem of a short story from Roald Dahl, the master of the sting in the tail. In The Landlady, Roald Dahl, one of the world's favourite authors, tells a sinister story about the darker side of human nature. Here, a young man in need of room meets a most accommodating landlady . . . The Landlady is taken from the short story collection Kiss Kiss, which includes ten other devious and shocking stories, featuring the wife who pawns the mink coat from her lover with unexpected results; the priceless piece of furniture that is the subject of a deceitful bargain; a wronged woman taking revenge on her dead husband, and others.

'Unnerving bedtime stories, subtle, proficient, hair-raising and done to a turn.' (San Francisco Chronicle) This story is also available as a Penguin digital audio download read by Tamsin Greig. Roald Dahl, the brilliant and worldwide acclaimed author of Charlie and the Chocolate Factory, James and the Giant Peach, Matilda, and many more classics for children, also wrote scores of short stories for adults. These delightfully disturbing tales have often been filmed and were most recently the inspiration for the West End play, Roald Dahl's Twisted Tales by Jeremy Dyson. Roald Dahl's stories continue to make readers shiver today.

Blockchain Technologies and Applications for Digital Governance Nijalingappa, Pradeep 2021-11-05 Since its inception, blockchain has evolved to become a crucial trending technology that massively impacts the fast-paced digital world. It has been a game-changing technology that is underpinned with cryptocurrencies like Ethereum and Bitcoin that eventually closed the doors for hacking activities. As blockchain is utilized across areas such as banking, voting, finance, healthcare, and manufacturing, it is important to examine the current trends, difficulties, opportunities, and future directions in order to utilize its full potential. Blockchain Technologies and Applications for Digital Governance addresses the impacts and future trends of blockchain, particularly for digital governance, and demonstrates the applications of blockchain in digital governance using case studies. Covering a range of topics from cybersecurity to real estate

tokenization, it is ideal for industry professionals, researchers, academicians, instructors, practitioners, and students.

Who Owns Whom 2008

Issues in Urban Development Dr. R. N. Sharma 2001 "The genesis of Navi Mumbai in 1970 was a result of the much felt need by the Maharashtra government to develop a new metro-centre as a counter magnet to the mega city - Bombay (now Mumbai). Since three decades had elapsed, it was considered pertinent to put together different perspectives on the evolution of Navi Mumbai. For this purpose, distinguished planners, administrators and academics--directly or indirectly associated with the project--assembled at a seminar organised by the Tata Institute of Social Sciences, Mumbai in 1999. The book, which is an outcome of the seminar, is invaluable for all those interested in urban planning, urban sociology and economy of developed human settlements. It provides valuable data on various socio-economic and planning aspects involved in shaping of the new city."

The Scout Shirish Thorat 2019-01-10 The Scout traces the journey of David Headley, son of a Pakistani aristocrat and an American mother who easily straddled both the Islamic and the western worlds. It is a tale of deception and deceit, of audacity and ingenuity and a detailed account of a man who coldly and systematically conducted a series of reconnaissance missions that perfected the most vicious and daring assault ever on the city of Mumbai. Investigated by two professionals in the field of anti terrorist operations, the Scout is a painstakingly researched and authentic account of the life and times of David Headley right until the time of his arrest whilst collaborating with the Al Qaeda and planning a public massacre in Denmark. The book includes heretofore unknown documents, emails and pictures and exclusive details which offer fascinating reading to everyone from the common man to law enforcement and intelligence officials worldwide.

MP Police Constable Paper I | 15 Previous Years Solved Papers (2017) Rohit Manglik 2021-02-01 The Madhya Pradesh (MP) Police is the Law Enforcement agency for the state of Madhya Pradesh, India. To protect the laws which are made by the judicial system. To decrease the number of crimes and civil disorder , for all things we need a strong Police Force. The MP Police Constable Exam is the state level recruitment examination which is organized to recruit the deserving candidates as the constable in the MP Police.

Yugantar: The Dream of Bharatavarsha Takes Shape 2300 Years Ago Raghavan Srinivasan 2020-11-25 The fourth century BCE is full of dangers and opportunities. Old republics are giving way to empires and cities. 'Naastik' sects are challenging the established varna system. The intellectual life of India is bristling like new shoots after the monsoon. The domination of the Kshatriyas and the Brahmanas is being challenged. State power is up for grabs. And the Macedonians are at the gates! Most people believe that Bharatavarsha is only a dream. But not the Yugantar, a brotherhood of the wisest and most selfless thinkers of ancient India. Interesting turn of events bring ordinary people from different parts of the subcontinent into the fold of the Yugantar -- a rebel blacksmith from Ujjayini, a Siddha doctor from Madurai; a doughty mariner from Muziris; a trader from Pataliputra and a widow nun from Kaushambi. They represent a microcosm of the sub-continent. Each of them is drawn towards the Yugantar by a strange turn of events. Each has a prowess which the Yugantar can mould into a formidable force. They converge in Takshashila, the centre of learning and transformation. This is the story of how their wit and determination contribute to a united Bharatavarsha.
