The Persistence of Ethnicity Rob Kroes 1992 Immigration and ethnicity have long been staples of American history and literature, yet ethnicity has rarely been explored as the complex process of acculturation and adaptation that it is. In an adept combination of theoretical analysis and narrative, Rob Kroes presents the story of Amsterdam, Montana, a small, century-old village in the Gallatin Valley. Through extensive use of archival material, interviews with community members, and several months of first-hand experience living there, Kroes depicts the village's struggles for survival, its development as an "American" community, and, most important, its ability to maintain a strong Dutch ethnicity and culture through its ties to the Christian Reformed church. The reader sees the community as a whole as it moves through time, developing its many forms of accommodation to the surrounding American environment. There

is a pervasive sense of the religion-based internal stratification and strife which, in the end, have served to draw the community more closely together as a solidly ethnic enclave. Amsterdam, Montana, is in America, but not quite of it.

Anaconda Laurie Mercier 2001 Mercier depicts the vibrant life of the smelter city at full steam, incorporating the candid, sometimes wry commentary of the locals ("the company furnished three pair of leather gloves . . . and all the arsenic [dust] you could eat"). She documents the early history of the town and the distinctive culture of cooperation and activism that residents fostered in the 1930s and 1940s. Ultimately, their solidarity and discontent with the company converged in the successful 1934 strike and sustained five decades of devoted unionism.

Chevy Drag Racing 1955-1980: A Celebration of Bowtie's Success at the Drag Strip Doug Boyce 2020-03-15 Relive the glorious first 25 years of Chevy drag racing in this comprehensive and nostalgic history. With the introduction of Chevy's OHV V-8 in 1955, the brand's domination on the drag strip immediately snowballed. Drag racers loved the compact V-8. It was lightweight, revved high, and responded like no other engine previously produced to modification. Chevy saw a record year in sales in 1955, thanks to a combination of a restyled body and the new mill. It was the age of ingenuity, and those who could get their hands on the new engine were swapping it into engine bays that once housed other weaker mills. Ford's flathead, one that had dominated for so long, was rendered obsolete almost overnight. Chevy had a winner and dominated the sales charts for years to come. Aftermarket manufacturers got on board and offered up all the go-fast goodies needed to make Chevy a winner, no matter what category they ran. From Dragsters to Stock, Chevy's success was immediate. And it was a long-term success, thanks to a combination of years of great styling and a vast array of driveline combinations.

Accomplished racing author Doug Boyce takes a celebratory look at those years of success, with a focus on the first 25 years (1955 through 1980). Chevrolets gave rise to such stars as Bill "Grumpy" Jenkins, "Jungle Jim" Liberman, "Sneaky Pete" Robinson, "Dyno" Don Nicholson, Sox & Martin, Dick Harrell, Dave Strickler, and many more. World champs and fan favorites all drove Chevys. The success showed in the record books. No brand has won more races and events or has set more national records than Chevrolet. And unlike the other manufacturers, Ford and Chrysler, it was done with little to no factory support. Whether you are a hardcore Chevy fan or just love catching up on the history of drag racing during the golden age, this nostalgic look at Chevy racing history is sure to entertain for hours on end.

The Book of the Damned Charles Fort 1972 "Time travel, UFOs, mysterious planets, stigmata, rock-throwing poltergeists, huge footprints, bizarre rains of fish and frogs-nearly a century after Charles Fort's Book of the Damned was originally published, the strange phenomenon presented in this book remains largely unexplained by modern science. Through painstaking research and a witty, sarcastic style, Fort captures the imagination while exposing the flaws of popular scientific explanations. Virtually all of his material was compiled and documented from reports published in reputable journals, newspapers and periodicals because he was an avid collector. Charles Fort was somewhat of a recluse who spent most of his spare time researching these strange events and collected these reports from publications sent to him from around the globe. This was the first of a series of books he created on unusual and unexplained events and to this day it remains the most popular. If you agree that truth is often stranger than fiction, then this book is for you"--Taken from Good Reads website.

Dodge City Tom Clavin 2017-02-28 The instant New York Times bestseller! Dodge City, Kansas, is a place of legend. The town that started as a small military site exploded with the coming of the railroad, cattle drives, eager miners, settlers, and various entrepreneurs passing through to populate the expanding West. Before long, Dodge City's streets were lined with saloons and brothels and its populace was thick with gunmen, horse thieves, and desperadoes of every sort. By the 1870s, Dodge City was known as the most violent and turbulent town in the West. Enter Wyatt Earp and Bat Masterson. Young and largely self-trained men, the lawmen led the effort that established frontier justice and the rule of law in the American West, and did it in the wickedest place in the United States. When they moved on, Wyatt to Tombstone and Bat to Colorado, a tamed Dodge was left in the hands of Jim Masterson. But before long Wyatt and Bat, each having had a lawman brother killed, returned to that threatened western Kansas town to team up to restore order again in what became known as the Dodge City War before riding off into the sunset. #1 New York Times bestselling author Tom Clavin's Dodge City tells the true story of their friendship, romances, gunfights, and adventures, along with the remarkable cast of characters they encountered along the way (including Wild Bill Hickock, Jesse James, Doc Holliday, Buffalo Bill Cody, John Wesley Hardin, Billy the Kid, and Theodore Roosevelt) that has gone largely untold—lost in the haze of Hollywood films and western fiction, until now.
