CAPE Accounting 2 Sylvan James 2020-03-28 This textbook is to help students taking the Caribbean Advance Proficiency Examination (CAPE) in Accounting Unit 2 Cost and Management Accounting. Students can enhance their problem solving, computational and accounting skill by using the model answers to past examination questions. The book presents a preview of the type of response you will have to give to the questions in the actual examinations. The book provides suggested solutions to students for past examination papers. The author has served as a CAPE Examining Assistant for the past 15 years and is very acquainted with the style of questions and the solutions required. My approach to preparing the answers has been both of an examiner and teacher. I am fully aware of the frustrations many candidates face in formatting and presenting their responses of this particular unit and have sought to address this problem. You can use the layouts suggested. The book provides suggested responses to question papers for the years 2012 - 2019. These are the years covered by the present syllabus. The solutions are clearly laid out according to each year and each module. Students can obtain the relevant examination papers from the Caribbean Examinations Council and work them through by modules and compare their response with the one given here. The book will also be useful to teachers in preparing their students for taking this exam.

Elasticity and Toughness Feng Wei 2021-12-31 This book examines minban teacher policies and their implementation in China between 1949 and 2000, when rural areas were in severe shortage of qualified teachers. During this period of time, minban teachers made great contributions to education, doing the same work as state-employed school teachers while receiving much lower salaries due to non-official status. With solid fieldwork on oral history of minban teachers and policy actors and deep examination of a wealth of policy documents in private and governmental archives, the author records the life history of minban teachers, the process of minban teacher policies, and the interaction between policies and individual strategies in M county (pseudonym), located in northern Jiangsu province of China. The book reveals many interesting and sometimes surprising findings about the characteristics of educational policy implementation in China. While China's minban teacher policies have come to an end, rural education continues to be a major concern of policymakers and researchers alike. The book is an important piece of scholarship for the readers interested in rural education in China, and in how state, society, and culture interact to influence teacher policies and management in the Chinese context.
