Wise Social Studies in an Age of High-Stakes Testing Elizabeth Anne Yeager 2005-08-01 The chapters in this volume illustrate how teachers are bringing creativity, higher-order thinking, and meaningful learning activities into particular school settings despite pressures of standards and testing. We chose the word wise for the title of this book, and we use it frequently to describe the pedagogical practices we have identified. The words powerful and ambitious are used as well. The larger point, as Keith C. Barton makes in his chapter, is that there is no necessary connection between content standards and high-stakes tests on the one hand, and lowlevel, rote instruction on the other. He reminds us, as Thornton (1991) and Wiggins (1987) previously have argued, that "teachers play a crucial role in mediating educational policy, and their intentions and interpretations have at least as much influence on classroom practice as does the content of standards and highstakes tests." Barton also asserts that "this makes it all the more crucial to identify the wisdom of practice that enables teachers . . . to engage students in powerful educational experiences."

Told in the captivating voice of a woman who refuses to live in sorrow, bitterness, fear, or foolish romantic dreams, it is the story of fair-skinned, fiercely independent Janie Crawford, and her evolving selfhood through three marriages and a life marked by poverty, trials, and purpose. Rush Revere and the American Revolution Rush Limbaugh 2014-10-28 THE AMERICAN REVOLUTION HAS BEGUN--AND RUSH REVERE, LIBERTY THE HORSE, AND THE TIME-TRAVELING CREW ARE READY TO RIDE INTO THE ACTION! Join us on this incredible time-travel adventure! Liberty, my wisecracking horse, our old friends Cam, Tommy, Freedom, and I are off to meet some super-brave soldiers in the year 1775. Yep, that's right. We'll be visiting with the underdog heroes who fought for American independence, against all odds--and won! But not before eight very real years of danger and uncertainty. Be a part of Rush Revere's crew as we rush, rush, rush into a time when British rule had become a royal pain, and rebellion was in the air. We'll be on hand to see two lanterns hung in the Old North Church, prevent a British spy from capturing Paul Revere, and grapple with danger at the battles of Lexington, Concord, and Bunker Hill. The extra special part of this trip is that right here in the twenty-first century, Cam's dad is a soldier fighting in Afghanistan, and Cam has been pretty angry that he is away. Visiting with exceptional American heroes like Dr. Joseph Warren and George Washington, racing along after Paul Revere on his midnight ride, and seeing the Declaration of Independence signed make Cam see his own dad in a new and special way. But don't worry. Along with the danger, excitement, and patriotism, there will still be time to stop for a delicious spinach, oats, and alfalfa smoothie. No, wait--that one's for Liberty. The kids and I voted for strawberries. Now let's open the magic portal to the past!

The Most Dangerous Game Richard Connell 2021-01-01 ♥♥ The Most Dangerous Game by Richard Connell ♥♥ The Most Dangerous Game, also published as *The Hounds of Zaroff*, is a short story by Richard Connell first published in *Collier's* magazine on January 19, 1924. It features a big-game hunter from New York who falls off a yacht and swims to an isolated island in the Caribbean where he is hunted by a Cossack aristocrat. The story is an adaptation of the big-game hunting safaris in Africa and South America that were fashionable among wealthy Americans in the 1920s. ♥♥ The Most Dangerous Game by Richard Connell ♥♥ Big-game hunter Sanger Rainsford and his friend, Whitney, are traveling to the Amazon rainforest for a jaguar hunt. After a discussion about how they are "the hunters" instead of "the hunted," Whitney goes to bed and Rainsford hears gunshots. He climbs onto the yacht's rail and accidentally falls overboard, swimming to Ship-Trap Island, which is notorious for shipwrecks. On the island, he finds a palatial chateau inhabited by two Cossacks: the owner, General Zaroff, and his gigantic deaf-mute servant, Ivan. ♥♥ The Most Dangerous Game by Richard Connell ♥♥ Zaroff, another big-game hunter, knows of Rainsford from his published account of hunting snow leopards in Tibet. Over dinner, the middle-aged Zaroff explains that although he has been hunting animals since he was a boy, he has decided that killing big-game has become boring for him, so after escaping the Russian Revolution he moved to Ship-Trap Island and set it up to trick ships into wrecking themselves on the jagged rocks that surround it. He takes the survivors captive and hunts them for sport, giving them food, clothing, a knife, and a three-hour head start, and using only a small-caliber pistol for himself. Any captives who can elude Zaroff, Ivan, and a pack of hunting dogs for three days are set free. He reveals that he has won every hunt to date. Captives are offered a choice between being hunted or turned over to Ivan, who once served as official knouter for the Great White Czar. Rainsford denounces the hunt as barbarism, but Zaroff replies by claiming that "life is for the strong." Realizing he has no way out, Rainsford reluctantly agrees to be hunted. During his head start, Rainsford lays an intricate trail in the forest and then climbs a tree. Zaroff finds him easily, but decides to play with him as a cat would with a mouse, standing underneath the tree Rainsford is hiding in, smoking a cigarette, and then abruptly departing. ♥♥ The Most Dangerous Game by Richard Connell ♥♥ After the failed attempt at eluding Zaroff, Rainsford builds a Malay man-catcher, a weighted log attached to a trigger. This contraption injures Zaroff's shoulder, causing him to return home for the night, but he shouts his respect for the trap before departing. The next day Rainsford creates a Burmese tiger pit, which kills one of Zaroff's hounds. He sacrifices his knife and ties it to a sapling to make another trap, which kills Ivan when he stumbles into it. To escape Zaroff and his approaching hounds, Rainsford dives off a cliff into the sea; Zaroff, disappointed at Rainsford's apparent suicide, returns home. Zaroff smokes a pipe by his fireplace, but two issues keep him from the peace of mind: the difficulty of replacing Ivan and the uncertainty of whether Rainsford perished in his dive.

Industrialization and Colonization Tim McNeese 2000-09-01 "Industrialization and Colonization" covers the latter decades of the 19th century and the early years of the 20th. Building on the advances of the industrial revolution, this "post-revolutionary" period is similarly defined by remarkable technological and industrial innovation. An era of firsts—steel bridges, sewing machines, bicycles, typewriters, radios, automobiles, airplanes, electric light bulbs, and the first motion picture—the Age of Progress gave birth to unprecedented modes of productivity, transportation, and communication. Thomas Alva Edison and Wilbur and Orville Wright are among the historic figures discussed. Challenging review questions encourage meaningful reflection and historical analysis. A unit test and answer key are included.
