**The Trouble with Henry and Zoe** Andy Jones 2016-07-01 A heart-warming and funny novel about love and the choices we make. How bad choices can lead to good things, and how life is never what you expect it to be. Perfect for fans of One Day and Me Before You, from the author of The Two of Us. Henry and Zoe have more in common than they realise. For a start, they both have pasts they'd rather leave behind. Zoe has great friends, two jobs, a new house, and a big scary plan. After a traumatic, life-changing event, she plans to leave London and spend a year travelling. Alone. If Henry and Zoe had met one year ago, things might have worked out differently. But that s not the way life works. They meet seven months after their worlds have been turned upside down. And four months before Zoe is due to climb on a plane... **101 Trauma-Informed Interventions** Linda A. Curran, BCPC, LPC, CACD, CCDPD, EMDR Level II Trained 2013-05-01 This is an imminently practical workbook that shows a variety of invaluable techniques to get centered, calm and organized. An effective and enjoyable guide to help you feel in charge of yourself." ~ Bessel van der Kolk, M.D. This is the workbook that all mental health professionals wish they had at the beginning of their careers. Containing over 100 approaches to effectively deal with trauma, this workbook pulls together a wide array of treatments into one concise resource. Equally useful in both group and individual settings, these interventions will provide hope and healing for the client, as well as expand and solidify the professional's expertise. Tools and techniques drawn from the most effective trauma modalities: \* Art Therapy \* CBT \* DBT \* EFT \* EMDR \* Energy Psychology \* Focusing \* Gestalt Therapy \* Guided Imagery \* Mindfulness \* Psychodrama \* Sensorimotor Psychology \* Somatic Experiencing and Movement Therapies -BONUS: Book includes a link to all reproducible worksheets! Print and use with clients right away!! Praise for 101 Trauma-Informed Interventions: “Linda Curran's unflinching energy and dedication to the healing of traumatized individuals has led to a voluminous, exciting, and comprehensive, 101 Trauma Informed Interventions. This workbook provides a plethora of effective tools -- traditional as well as innovative -- that can be used in whole or as a part of a course of therapy and also as self-help. The variety of options offered goes a long way towards dispelling the (unfortunately) popular misconception that there are only a limited number of interventions that help people to recover from trauma. Survivors as well as therapists who have been frustrated by the rigidity of strict adherence to evidence based practice will be greatly relieved to find a wealth of useful strategies to experiment, evaluate, and sort into a personally tailored trauma recovery program. This workbook is a god-send for the trauma field, expanding the possibilities for recovery in a most generous way.” ~ Babette Rothschild, MSW author of The Body Remembers and 8 Keys to Safe Trauma Recovery "Linda Curran has carefully and knowledgeably curated a practical, effective collection of interventions that actually work for trauma survivors. Any clinician committed to helping those suffering from posttraumatic stress needs to have these tools and resources to draw upon, because standard talk therapy, nine times out of ten, is simply not going to cut it. These exercises will." ~ Belleruth Naparstek, LISW, author of Invisible Heroes: Survivors of Trauma and How They Heal “Drawing from the whole spectrum of trauma-based therapies, Linda Curran has compiled a sampling of practical exercises designed to help therapists and their clients better navigate the mine field that trauma work can be and find the path to healing.” – Richard Schwartz, Ph.D. author of Internal Family Systems Therapy "101 Trauma-Informed Interventions provides an accessible functional “playbook” for therapists committed to the rehabilitation of the client with a trauma history. In a readable volume Curran integrates diverse approaches of treatment and emphasizes the unique role that trauma plays in mental health. Underlying this eclectic strategy is the common theme emphasizing that healing will only begin when the trauma related feelings embedded in the body are appreciated." – Stephen W. Porges, Ph.D., author of The Polyvagal Theory "An interesting compendium of potential interventions that can be interwoven into any therapist's existing conceptual framework" ~ Louis Cozolino, Ph.D., Pepperdine University, and author of 5 books including the best-seller The Neuroscience of Psychotherapy, Healing the Social Brain (2nd edition)
