**The Only Way to Win** Jim Loehr 2012-05-15 The conditioning begins early in our lives. Great achievements will bring lasting happiness and fulfillment; great achievements form the bedrock of stable self-esteem and strong character; great achievements will become the foundation for a successful life. If these well-intentioned promises are true, why does winning never seem to be enough? In *The Only Way to Win*, Jim Loehr draws upon two decades of work with Fortune 500 executives; world-class athletes such as Monica Seles, Dan Jansen, and Eric Lindros; and other high achievers at the Human Performance Institute (HPI) to reveal surprising insights about achievement motivation. Specifically, Loehr finds that the blind pursuit of external achievement often results in emptiness, addiction, and, ironically, poor performance. It's not really about what you achieve, he argues, it's about who you become as a consequence of the chase. From the bestselling author of *On Form*, comes a compelling, practical, and hopeful read filled with relatable stories and useful exercises. *The Only Way to Win* will

serve as a powerful wake-up call for business leaders, employees, teachers, and coaches. It will also provide inspiration for readers looking to perform better, achieve more, and change both their own lives and those of the people they influence.

Other segments offer a journalistic history of the human relationship with memory, addressing its failings, its successes, and its limitations. Most people operate according to a series of misconceptions about human memory. Above all, many believe that they have an average brain and are therefore incapable of performing mental feats such as swiftly memorizing a deck of playing cards shuffled into random order. This belief, however, is false. Memory champions are no smarter than anyone else and have unremarkable brains from a biological standpoint. The difference is in how memory

champions use their brain. They employ techniques and training to overcome shortcomings that are hard-wired into the human brain anatomy. Even those who appear to possess a photographic memory likely do not and are instead employing other memorization techniques... UnSelling Scott Stratten 2014-09-29 *UnSelling* is about everything but the sell. We put all of our focus on the individual purchase transaction, while putting the rest of our business actions second. We've become blind to customer service, support, branding, experiences and even product quality. Sixty percent of a purchasing decision is made before a customer even contacts you. We have funnel vision, and it needs to stop. *Unselling* is

about the big picture: creating repeat customers, not one-time buyers. Create loyal clients that refer others, not faceless numbers. Becoming the go-to company for something, before they even need you. You don't need social media, but you can be connecting with your clients socially. Your video doesn't have to be viral in front of a million people, just contagious in front of your specific market. Content, connection, engagement. It's time to separate from the pack of noise. It's time to UnSell.

**The Way We're Working Isn't Working** Tony Schwartz  
2010-05-18 This book was previously titled, Be Excellent at Anything. The Way We're Working Isn't Working is one of those rare books with the power to profoundly transform the way we work and live. Demand is exceeding our capacity. The ethic of "more, bigger, faster" exacts a series of silent but pernicious costs at work, undermining our energy, focus, creativity, and passion. Nearly 75 percent of employees around the world feel disengaged at work every day. The Way We're Working Isn't Working offers a groundbreaking approach to reenergizing our lives so we're both more satisfied and more productive—on the job and off. By integrating multidisciplinary findings from the science of high performance, Tony Schwartz, coauthor of the #1 bestselling *The Power of Full Engagement*, makes a persuasive case that we're neglecting the four core needs that energize great performance: sustainability (physical); security (emotional); self-expression (mental); and significance (spiritual). Rather than running like computers at high speeds for long periods, we're at our best when we pulse rhythmically between expending and regularly renewing energy across each of our four needs. Organizations undermine sustainable high performance by forever seeking to get more out of their people. Instead they should seek systematically to meet their four core needs so they're freed, fueled, and inspired to bring the best of themselves to work every

day. Drawing on extensive work with an extra-ordinary range of organizations, among them Google, Ford, Sony, Ernst & Young, Shell, IBM, the Los Angeles Police Department, and the Cleveland Clinic, Schwartz creates a road map for a new way of working. At the individual level, he explains how we can build specific rituals into our daily schedules to balance intense effort with regular renewal; offset emotionally draining experiences with practices that fuel resilience; move between a narrow focus on urgent demands and more strategic, creative thinking; and balance a short-term focus on immediate results with a values-driven commitment to serving the greater good. At the organizational level, he outlines new policies, practices, and cultural messages that Schwartz's client companies have adopted. The Way We're Working Isn't Working offers individuals, leaders, and organizations a highly practical, proven set of strategies to better manage the relentlessly rising demands we all face in an increasingly complex world.

**The Power of Full Engagement** James E. Loehr 2005-01-03 A personal energy training program outlines strategies on how to prevent burnout and improve productivity, discussing such areas as how to work with four key sources of energy, balancing stress and recovery, expanding capacity, and implementing positive routines. **Leading with Character** Jim Loehr 2020-09-23 PRAISE FOR LEADING WITH CHARACTER "Leading with Character can help you sharpen and define your potential legacy and, in the course of doing that, will make you a better leader in all aspects of your life." –CHIP BERGH, CEO, Levi Strauss & Co. "As a fan of Dr. Loehr's for over twenty years, I have been amazed by the continued evolution of his concepts while maintaining the initial building blocks he identified over thirty years ago. Leading with Character provides us with the source code required to define our own self-determined purpose while extending our thinking beyond self-interest to incorporate a more fulfilling concern for others." –PETER SCATURRO, former CEO of U.S. Trust, Partner at Goldman Sachs, and Managing Partner at PKS Group "As a journalist, I've been interviewing and writing about business leaders for four decades now, and I firmly believe something has changed profoundly in the last five to ten years. Business leadership has become less about giving orders, more about setting example; less about articulating a detailed strategy, more about setting values, directions, and guard rails. As a result, character becomes much more important. People want to work for someone whom they view as a moral leader, and they will model his or her behavior. The radical transparency of

today's world means they will quickly see through leaders who are not authentic, and identify those who are. Character becomes critical." –ALAN MURRAY, CEO, Fortune Media Corporation "The unprecedented challenges of the twenty-first century demand leaders of every stripe who share one common attribute—a strong character of integrity and honor. After a half-century of studying and coaching world-class performers in all walks of life, this special book is Jim Loehr's magnum opus. His rigorous training program applies the modern science of human performance to the classical wisdom of character development. This practical guide is for those who have the courage and perseverance to follow this proven path to a life of significance by becoming your best self. If you are up for the challenge, read this book, turn off social media, and get to work." –CAPTAIN GEORGE DOM, USN (Ret.), former commanding officer and flight leader of the Navy's Blue Angels

**The Only Way to Win** Jim Loehr 2012-05-08 Why Winning with Character Is the Only Way to Win The conditioning begins early in our lives. Great achievements will bring lasting happiness and fulfillment; great achievements form the bedrock of stable self-esteem and strong character; great achievements will become the foundation for a successful life. If these well-intentioned

promises are true, why does winning never seem to be enough? In *The Only Way to Win*, Jim Loehr draws upon two decades of work with Fortune 500 executives; world-class athletes such as Monica Seles, Dan Jansen, and Eric Lindros; and other high achievers at the Human Performance Institute (HPI) to reveal surprising insights about achievement motivation. Specifically, Loehr finds that the blind pursuit of external achievement often results in emptiness, addiction, and, ironically, poor performance. It's not really about what you achieve, he argues, it's about who you become as a consequence of the chase. As Loehr powerfully demonstrates, success at work and fulfillment in life require a complete re-purposing of achievement, one where value is derived from growth in areas such as integrity, honesty, gratefulness, humility, optimism, and compassion. To help readers start this process, he provides them with the tools they need to develop these character traits, as well as the plan they need to use them effectively. A compelling, practical, and hopeful read filled with relatable stories and useful exercises, *The Only Way to Win* will serve as a powerful wake-up call for business leaders, employees, teachers, and coaches. It will also provide inspiration for readers looking to perform better, achieve more, and change both their own lives and those of the people they influence. Jim Loehr is a world-renowned performance psychologist, co-founder of the Human Performance Institute, and author of fifteen books, including his most recent, *The Power of Story*.
