Polygamy on the Pedernales Melvin C Johnson 2006-03-31 In the wake of Joseph Smith Jr.'s murder in 1844, his following splintered, and some allied themselves with a maverick Mormon apostle, Lyman Wight. Sometimes called the "Wild Ram of Texas," Wight took his splinter

group to frontier Texas, a destination to which Smith, before his murder, had considered moving his followers, who were increasingly unwelcome in the Midwest. He had instructed Wight to take a small band of church members from Wisconsin to establish a Texas colony that would prepare the ground for a mass migration of the membership. Having received these orders directly from Smith, Wight did not believe the former's death changed their significance. If anything, he felt all the more responsible for fulfilling what he believed was a prophet's intention. Antagonism with Brigham Young and the other LDS apostles grew, and Wight refused to join with them or move to their new gathering place in Utah. He and his small congregation pursued their own destiny, becoming an interesting component of the Texas frontier, where they had a significant economic role as early millers and cowboys and a political one as a buffer with the Comanches. Their social

and religious practices shared many of the idiosyncracies of the larger Mormon sect, including polygamous marriages, temple rites, and economic cooperatives. Wight was a charismatic but authoritarian and increasingly odd figure, in part because of chemical addictions. His death in 1858 while leading his shrinking number of followers on yet one more migration brought an effective end to his independent church.

The Intentional Dynamics of TESOL Juup Stelma 2021-04-19 This book presents intentional dynamics, which is a new perspective on TESOL contexts, activity and outcomes. The key innovation is a synthesis of complex systems and ecological theories, as well as the concept of intentionality from the philosophy of mind, to understand the psychological and social processes of TESOL. One aspect of intentional dynamics is the 'ordinary' intentions of individuals to perform particular actions, and of organisations to achieve planned outcomes. Another aspect is philosophically defined psychological and social

forms of intentionality. Psychological intentionality is understood as what language learners' and teachers' (and other stakeholders') beliefs and emotions are 'about' or 'directed at'. Social intentionality is the 'aboutness' expressed by TESOL materials, curricula and policies. The book explores how intentional dynamics both emerge from and give shape to TESOL activity, and outlines what are the practical implications of intentional dynamics for TESOL learners, teachers, researchers, managers and policy-makers.

Murder at the Sleepy Lagoon Eduardo Obregón Pagán 2004-07-21 The notorious 1942 "Sleepy Lagoon" murder trial in Los Angeles concluded with the conviction of seventeen young Mexican American men for the alleged gang slaying of fellow youth Jose Diaz. Just five months later, the so-called Zoot Suit Riot erupted, as white soldiers in the city attacked minority youths and burned their distinctive zoot suits. Eduardo Obregon Pagan here provides the first comprehensive social history of both the trial and the riot and argues that they resulted from a volatile mix of

racial and social tensions that had long been simmering. In reconstructing the lives of the murder victim and those accused of the crime, Pagan contends that neither the convictions (which were based on little hard evidence) nor the ensuing riot arose simply from anti-Mexican sentiment. He demonstrates instead that a variety of pre-existing stresses, including demographic pressures, anxiety about nascent youth culture, and the war effort all contributed to the social tension and the eruption of violence. Moreover, he recovers a multidimensional picture of Los Angeles during World War II that incorporates the complex intersections of music, fashion, violence, race relations, and neighborhood activism. Drawing upon overlooked evidence, Pagan concludes by reconstructing the murder scene and proposes a compelling theory about what really happened the night of the murder.

The Fox Effect David Brock 2012-02-21 Here is comprehensive overview of the tumultuous career of former Fox News president Roger Ailes and a must-read for anyone looking to understand his legacy and impact on news media. Based on the meticulous research of the news watchdog organization Media Matters for America, David Brock and Ari Rabin-Havt show how Fox News, under its president Roger Ailes, changed from a right-leaning news network into a partisan advocate for the Republican Party. The Fox Effect follows the career of Ailes from his early work as a television producer and media consultant for Richard Nixon, Ronald Reagan, and George H.

W. Bush. Consequently, when he was hired in 1996 as the president of Rupert Murdoch's flagship conservative cable news network, Ailes had little journalism experience, but brought to the job the mindset of a political operative. As Brock and Rabin-Havt demonstrate through numerous examples, Ailes used his extraordinary power and influence to spread a partisan political agenda that is at odds with long-established, widely held standards of fairness and objectivity in news reporting. Featuring transcripts of leaked audio and memos from Fox News reporters and executives, *The Fox Effect* is a damning indictment of how the network's news coverage and commentators have biased reporting, drummed up marginal stories, and even consciously manipulated established facts in their efforts to attack the Obama administration.

Many Pathways to Literacy Eve Gregory 2004 This text is a compilation of studies conducted in a variety of cross-cultural contexts where children learn language and literacy with siblings, grandparents, peers and community members. Focusing on the knowledge and skills of children often invisible to educators, these illuminating studies highlight how children skillfully draw from their varied cultural and linguistic worlds to make sense of new experiences. Through studies grounded in home, school, community school, nursery and church settings, we see how children

create for themselves radical forms of teaching and learning in ways that are not typically recognized, understood or valued in schools.
