deadly pioneer planet. The Colonial Union has also set them up as a target for hostile alien action. Zoë must become a player (and a pawn) in an interstellar battle, which will determine the fate of humanity. Her father's side of this story was told in *The Last Colony*, but *Zoe's Tale* reveals a whole new dimension. It's a story you may think you know, but you don't really know it at all. **Prador Moon** Neal Asher 2007-10-31 The Polity Collective, which benignly rules numerous star systems, has come up against a chilling opponent. The crablike Prador are bloodthirsty aliens bent on crushing the Polity and stealing its runcible technology... and they possess a frightening superiority in space warfare. Two wild-card humans, a vengeance-driven soldier and a runcible technician, must now combine their talents in an attempt to stop a seemingly

invincible Prador warship from incinerating yet another Polity world. Combining violence and cunning in a race against time, this is classic space opera from one of the new masters of the genre.

*Old Man's War* John Scalzi

2007-04-01 John Perry did two things on his 75th birthday. First he visited his wife's grave. Then he joined the army. The good news is that humanity finally made it into interstellar space. The bad news is that planets fit to live on are scarce- and aliens willing to fight for them are common. The universe, it turns out, is a hostile place. So: we fight. To defend Earth (a target for our new enemies, should we let them get close enough) and to stake our own claim to planetary real estate. Far from Earth, the war has gone on for decades: brutal, bloody,

unyielding. Earth itself is a backwater. The bulk of humanity's resources are in the hands of the Colonial Defense Force, which shields the home planet from too much knowledge of the situation. What's known to everybody is that when you reach retirement age, you can join the CDF. They don't want young people; they want people who carry the knowledge and skills of decades of living. You'll be taken off Earth and never allowed to return. You'll serve your time at the front. And if you survive, you'll be given a generous homestead stake of your own, on one of our hard-won colony planets. John Perry is taking that deal. He has only the vaguest idea what to expect. Because the actual fight, light-years from home, is far, far harder than he can imagine- and what he will become is far stranger. 2015-09-01 Humans expanded into space, discovering multiple alien species. But these were enemies not allies, their forces were bent on our destruction. Thus was the Colonial Union formed, to protect us from a hostile universe. And Earth's excess population became its colonists and soldiers. It was a good arrangement - for the Colonial Union. Then the Earth said no more. Now the Colonial Union is living on borrowed time before its defence forces are fatally depleted. Then struggling human colonies will be vulnerable, easy prey for alien species eager for humanity's ruin. And there's another problem. A group lurks in the darkness of space, playing human and alien

**Your Hate Mail Will Be Graded** John Scalzi 2010-01-05 On September 13, 1998, John Scalzi sat down in front of his

computer to write the first entry in his blog Whatever--and changed the history of the Internet as we know it today. What, you're not swallowing that one? Okay, fine: He started writing Whatever and amused about 15 people that first day. If that many. But he kept at it, for ten years and running. Now 40,000 people drop by on a daily basis to see what he's got to say. About what? Well, about whatever: Politics, writing, family, war, popular culture and cats (especially with bacon on them). Sometimes he's funny. Sometimes he's serious (mostly he's sarcastic). Sometimes people agree with him. Sometimes they send him hate mail, which he grades on originality and sends back. Along the way, Scalzi's become a best-selling, award-winning author, a father, and a geek celebrity. But no matter what, there's always another Whatever post to amuse and/or enrage his readers. Your Hate Mail Will Be Graded collects some of the best and most popular Whatever entries from the first ten years of the blog.

2013-01-15 Ensign Andrew Dahl has just been assigned to the Universal Union Capital Ship Intrepid, flagship of the Universal Union since the year 2456. It's a prestige posting, with the chance to serve on "Away Missions" alongside the starship's famous senior officers. Life couldn't be better...until Andrew begins to realize that 1) every Away Mission involves a lethal confrontation with alien forces, 2) the ship's senior officers always survive these confrontations, and 3) sadly, at least one low-ranking crew

member is invariably killed.

Unsurprisingly, the savvier crew members below decks avoid Away Missions at all costs. Then Andrew stumbles on information that transforms his and his colleagues' understanding of what the starship Intrepid really is...and offers them a crazy, high-risk chance to save their own lives. *Redshirts* by John Scalzi is the winner of the 2013 Hugo Award for Best Novel.

\*2018 HUGO AWARD FINALIST FOR BEST NOVEL\* "John Scalzi is the most entertaining, accessible writer working in SF today." —Joe Hill, author of *The Fireman* The first novel of a new space-opera sequence set in an all-new universe by the Hugo Award-winning, New York Times-bestselling author of *Redshirts* and *Old Man's War* Our universe is ruled by physics. Faster than light travel is impossible—until the discovery of The Flow, an extradimensional field available at certain points in space-time, which can take us to other planets around other stars. Riding The Flow, humanity spreads to innumerable other worlds. Earth is forgotten. A new empire arises, the Interdependency, based on the doctrine that no one human outpost can survive without the others. It's a hedge against interstellar war—and, for the empire's rulers, a system of control. The Flow is eternal—but it's not static. Just as a river changes course, The Flow changes as well. In rare cases, entire worlds have been

cut off from the rest of humanity. When it's discovered that the entire Flow is moving, possibly separating all human worlds from one another forever, three individuals—a scientist, a starship captain, and the emperox of the Interdependency—must race against time to discover what, if anything, can be salvaged from an interstellar empire on the brink of collapse. "Fans of *Game of Thrones* and *Dune* will enjoy this bawdy, brutal, and brilliant political adventure" —Booklist on *The Collapsing Empire* "Political plotting, plenty of snark, puzzle-solving, and a healthy dose of action...Scalzi continues to be almost insufferably good at his brand of fun but think-y sci-fi adventure." —Kirkus Reviews on *The Collapsing Empire* "Scalzi is one of the slickest writers that SF has ever produced." —The Wall Street Journal on *The Human Division* The Interdependency Series 1. *The Collapsing Empire 2*. *The Consuming Fire* At the Publisher's request, this title is being sold without Digital

**Some Golden Harbor** David Drake 2006-02-01 The tyrannical Alliance continues its war against the Republic of Cinnabar, and Daniel Leary, newly promoted to Commander, and his crew have a new mission: Stop Dunbar's World from falling to an invasion by the planet Pellegrino. Nataniel Arruns, son of the dictator of Pellegrino, has landed with a large contingent, intending to set himself up as the ruling warlord, with the planet's population becoming workers-serfs-of the Pellegrinian overlords. And Dunbar's world has no more than their local police force to oppose him. Leary again commands the corvette Princess Cecile, but on this mission her missile tubes are empty. Only one man is in a position to aid Leary, but the

rich and powerful would rather see him fail than succeed in stopping the invasion. Leary must somehow overcome a large entrenched force on an island defended by powerful plasma cannon and shipkilling missiles and backed up by a heavily armed warship in orbit, all while commanding only a small and virtually unarmed spacecraft. But Leary again has the help of Signals Officer Adele Mundy, who can make computer networks do the apparently impossible. Leary, Mundy and the crew of the Princess Cecile have gone up against impossible odds before . . . and their opponents in those victorious missions are still wondering just what hit them. The Ghost Brigades John Scalzi  
2007-04-01 The Ghost Brigades are the Special Forces of the Colonial Defense Forces, elite troops created from the DNA of the dead and turned into the perfect soldiers for the CDF's toughest operations. They're young, they're fast and strong, and they're totally without normal human qualms. The universe is a dangerous place for humanity—and it's about to become far more dangerous. Three races that humans have clashed with before have allied to halt our expansion into space. Their linchpin: the turncoat military scientist Charles Boutin, who knows the CDF's biggest military secrets. To prevail, the CDF must find out why Boutin did what he did. Jared Dirac is the only human who can provide answers -- a superhuman hybrid, created from Boutin's DNA, Jared's brain should be able to access Boutin's electronic memories. But when the memory transplant appears to fail, Jared is given to the Ghost Brigades. At first, Jared is a perfect soldier, but as Boutin's

memories slowly surface, Jared begins to intuit the reason's for Boutin's betrayal. As Jared desperately hunts for his "father," he must also come to grips with his own choices. population for colonists and soldiers. It was a good arrangement for the Colonial Union. Then the Earth said: no more. Now the Colonial Union is living on borrowed time - a couple of decades at most, before the ranks of the Colonial Defense Forces are depleted and the struggling human colonies are vulnerable to the alien species who have been waiting for the first sign of weakness, to drive humanity to ruin. And there's another problem: A group, lurking in the darkness of space, playing human and alien against each other - and against their own kind - for their own unknown reasons. In this collapsing universe, CDF Lieutenant Harry Wilson and the Colonial Union diplomats he works with race against the clock to discover who is behind attacks on the Union and on alien races, to seek peace with a suspicious, angry Earth, and keep humanity's union intact or else risk oblivion, and extinction - and the end of all things.

**The Ghost Brigades: Old Man's War Book 2** John Scalzi

2008-02-01 Hard-core science fiction at its very best, the sequel to his extraordinary Old Man's War They are the special wing of the Colonial Defence Forces, elite troops created from DNA of the dead and turned into the perfect soldiers for the CDF's toughest operations. The universe is a dangerous place for humanity, as three hostile races combine to halt our further expansion into space. Their linchpin is a turncoat scientist, Charles Boutin, who unfortunately knows the CDF's biggest military secrets. And to prevail against this alliance, they must find out why Boutin did what he did. Jared Dirac is the only human able to provide answers, being a superhuman hybrid created from Boutin's own DNA. Jared's brain should therefore be able to access Boutin's electronic memories ... but when that appears to fail, Jared is instead passed on to the Ghost Brigades. Then, just as time is running out, Boutin's memories slowly begin to surface within him ... but all this while the enemy is planning

something much worse for mankind than just military defeat. PRAISE FOR THE OLD MAN'S WAR SERIES "Clever dialogue, fast-paced story and strong characters." The Times "Great fun" Daily Telegraph

**Old Man's War** John Scalzi 2005-12-27 John Perry did two things on his 75th birthday. First he visited his wife's grave. Then he joined the army. The good news is that humanity finally made it into interstellar space. The bad news is that planets fit to live on are scarce—and alien races willing to fight us for them are common. So: we fight. To defend Earth, and to stake our own claim to planetary real estate. Far from Earth, the war has been going on for decades: brutal, bloody, unyielding. Earth itself is a backwater. The bulk of humanity's resources are in the hands of the Colonial Defense Force. Everybody knows that when you reach retirement age, you can join the CDF. They don't want young people; they want people who carry the knowledge and skills of decades of living. You'll be

taken off Earth and never allowed to return. You'll serve two years at the front. And if you survive, you'll be given a generous homestead stake of your own, on one of our hard-won colony planets. John Perry is taking that deal. He has only the vaguest idea what to expect. Because the actual fight, light-years from home, is far, far harder than he can imagine—and what he will become is far stranger. ignorant of the dangerous universe around them. For generations the CU had defended humanity against hostile aliens, deliberately keeping Earth an ignorant backwater and a source of military recruits. Now the CU's secrets are known to all. Other alien races have come on the scene and formed a new alliance—an alliance against the Colonial Union. And they've invited the people of Earth to join them. For a shaken and betrayed Earth, the choice isn't obvious or easy. Against such possibilities, managing the survival of the Colonial Union won't be easy, either. It will take diplomatic finesse, political cunning...and a brilliant "B Team," centered on the resourceful Lieutenant Harry Wilson, that can be deployed to deal with the unpredictable and unexpected things the universe throws at you when you're struggling to preserve the unity of the human race. Being published online from January to April 2013 as a three-month digital serial, The Human Division will appear as a full-

length novel of the Old Man's War universe, plus—for the first time in print—the first tale of Lieutenant Harry Wilson, and a coda that wasn't part of the digital serialization. 2012-12-21 How do you tell your part in the biggest tale in history? I ask because it's what I have to do. I'm Zoe Boutin Perry: A colonist stranded on a deadly pioneer world. Holy icon to a race of aliens. A player (and a pawn) in an interstellar chess match to save humanity, or to see it fall. Witness to history. Friend. Daughter. Human. Seventeen years old. Everyone on Earth knows the tale I am part of. But you don't know my tale: How I did what I did — how I did what I had to do — not just to stay alive but to keep you alive, too. All of you. I'm going to tell it to you now, the only way I know how: not straight but true, the whole

2012-06-05 Ensign Andrew Dahl has just been assigned to the Universal Union Capital Ship Intrepid, flagship of the Universal Union since the year 2456. It's a prestige posting, and Andrew is thrilled all the more to be assigned to the ship's Xenobiology laboratory. Life couldn't be better...until Andrew begins to pick up on the fact that (1) every Away Mission involves some kind of lethal confrontation with alien forces, (2) the ship's captain, its chief science officer, and the handsome Lieutenant Kerensky always survive these confrontations, and (3) at least one low-ranked crew member is, sadly, always killed. Not surprisingly, a great deal of energy below decks is expended on avoiding, at all costs, being assigned to an

Away Mission. Then Andrew stumbles on information that completely transforms his and his colleagues' understanding of what the starship Intrepid really is...and offers them a crazy, high-risk chance to save their own lives.
